Introduction

The names, logos, emblems, slogans, vehicle model names, and vehicle body designs appearing in this manual including but not limited to CHEVROLET, the CHEVROLET Emblem, and CORVETTE are trademarks and/or service marks of General Motors LLC, its subsidiaries, affiliates, or licensors.

The information in this manual supplements the owner manual.

This manual describes features that may or may not be on your specific vehicle either because they are options that you did not purchase or due to changes subsequent to the printing of this owner manual. Please refer to the purchase documentation relating to your specific vehicle to confirm each of the features found on your vehicle. For vehicles first sold in Canada, substitute the name “General Motors of Canada Limited” for Chevrolet Motor Divisions wherever it appears in this manual.

Keep this manual with the owner manual in the vehicle, so it will be there if it is needed. If the vehicle is sold, leave this manual in the vehicle.

4 Infotainment System

Overview

Read the following pages to become familiar with the infotainment system features.

The infotainment system has built-in features intended to help with this by disabling some functions when driving. A grayed out function is not available when the vehicle is moving.

All functions are available when the vehicle is parked. Before driving:

- Become familiar with the infotainment system operation, buttons on the faceplate, and touch-sensitive screen buttons.
- Set up the audio by presetting favorite stations, setting the tone, and adjusting the speakers.
- Set up phone numbers in advance so they can be called easily by pressing a single button or by using a single voice command for vehicles equipped with phone capability.

Automatic Switch-Off

If the infotainment system has been turned on after the ignition is turned off, the system will turn off automatically after 10 minutes.

Infotainment System

The infotainment system is controlled by using the touchscreen, the buttons below the touchscreen, steering wheel controls, and voice recognition.

Warning

Taking your eyes off the road for too long or too often while using the infotainment or navigation system could cause a crash.

You or others could be injured or killed. Do not give extended attention to these tasks while driving. Limit glances at the vehicle displays and focus your attention on driving. Use voice commands whenever possible.

See “Defensive Driving” in the owner manual.
Infotainment System

1. **Ο / VOL (Power/Volume)**
2. **▲ SCREEN ▼**
3. **RADIO (AM/FM/XM)**
4. **MEDIA (iPod/USB Port/SD Card)**
5. **(Home Page)**
6. **MENU**
7. **(Seek or Track)**
8. **BACK**

**Power (On/Off/Mute)**
- When off, press **Ο / VOL** to turn the system on. Press and hold to turn off.
- When on, press **Ο / VOL** to mute the system. Press **Ο / VOL** again to unmute the system.

**Retained Accessory Power (RAP)**
The vehicle has RAP. When in RAP the audio system can be played even after the ignition is turned off. See “Retained Accessory Power (RAP)” in the owner manual.

**Volume**
Turn **Ο / VOL** to increase or decrease the volume.
6 Infotainment System

Home Page

The Home Page is where vehicle feature icons are accessed. Some features are disabled when the vehicle is moving.

The Home Page can be set up to have up to five pages with eight icons per page.

Press the left or right or slide a finger left/right across the screen to access the pages of icons.

(Previous): Press to go to the previous Home Page.

(Next): Press to go to the next Home Page.

(Interaction Selector): Press to display the favorites list.

Press and hold a location within the favorites area to begin the process of saving a favorite application.

Press the application icon to store as a favorite. The name of the application will be shown in favorites.

Managing Home Page Icons

1. Press and hold any of the Home Page icons to edit that icon.
2. Drag the icon to a new location on the Home Page or to save it to the applications tray.
3. Press to exit edit mode.
Steering Wheel Controls

Some audio controls can be adjusted at the steering wheel.

1 *(Push to Talk):* Press to answer an incoming call or to start a voice recognition session. See Bluetooth (Overview) on page 73 or Bluetooth (Infotainment Controls) on page 74 or Bluetooth (Voice Recognition) on page 78 or “OnStar Overview” in the owner manual.

1 *(Phone/Mute):* Press to decline an incoming call, or end a current call. Press to mute or unmute the infotainment system when not on a call.

1 or 1 *(Next or Previous):* Press to change radio stations in audio mode or to go up or down in a list.

1 or 1 *(Previous or Next):* Press to go to the previous or next area in the display or the previous or next menu.

1 *(Select):* Press to select a highlighted menu option.
8 Infotainment System

+ or − (2) (Volume): Press to increase or decrease volume.

FAV or FAV (3) (Next or Previous Favorite): Press to display a list of favorites. Press again to select the next or previous favorite when listening to the radio.

Using the System

Touchscreen Buttons
Touchscreen buttons show on the screen when available. When a function is unavailable, the button may gray out. When a function is selected, the button may highlight.

Home Page Features
Press the icons on the Home Page screen to launch an application.

Audio
Press the AUDIO icon to display the active audio source page. Available sources are AM, FM, XM (if equipped), My Media, USB, SD, Bluetooth, and AUX Input.

Phone
Press the PHONE icon to display the Phone main page. See Bluetooth (Overview) on page 73 or Bluetooth (Infotainment Controls) on page 74 or Bluetooth (Voice Recognition) on page 78.

NAV (Navigation, If Equipped)
Press the NAV icon to display the navigation map or OnStar Turn-by-Turn Navigation. See Using the Navigation System on page 27 or “OnStar Navigation” in the owner manual.

Apps
If equipped, this feature is available through the Apps icon on the radio Home Page. Downloading and using Apps requires a Bluetooth Internet connection as part of a smartphone or other mobile device data service plan. On most smartphones, activation is in the device’s Settings menu under Mobile Network Sharing, Personal Hotspot, Mobile Hotspot, Bluetooth Tethering, or similar. After activation of the hotspot on the smartphone, complete the Bluetooth pairing process using the Phone icon on the radio Home Page. After pairing the phone, press the Apps icon on the radio Home Page. Follow the prompts to configure the Internet connection and set up an account. See www.chevrolet.com/mylink (U.S.) or www.mylink.chevrolet.ca (Canada).

Settings
Press the SETTINGS icon to display the Settings menu. See Settings on page 70.

Phone (Voice Recognition)
Press the PHONE microphone icon on Home Page to access the Bluetooth Speech Recognition main page. See Voice Recognition on page 62.
Pandora (If Equipped)
Press the PANDORA icon to begin Pandora®. See Pandora Internet Radio on page 17.

Weather (If Equipped)
Press the WEATHER icon to display the Weather main page. See “SiriusXM Travel Link Weather (If Equipped)” under Destination on page 37.

OnStar
Press the ONSTAR icon to display the OnStar main page and start OnStar voice recognition. See “OnStar Overview” in the owner manual.

Applications Tray
The applications tray is at the top center of the screen. The applications tray can have three to five applications.
To add an application from the Home Page to the applications tray:
1. Press and hold any icon on the Home Page to enter edit mode.
2. Drag the icon to the applications tray.

To remove an item from the applications tray, drag the icon from the applications tray back to the Home Page.

Adding or removing applications from the applications tray will not remove them from the Home Page.

Infotainment Gestures
Use the following finger gestures to control the infotainment system.

Press/Tap
Press/tap is used to select a button or option, activate an application, or change the location inside a map. Many times the function is performed upon removal of the finger from the touch screen; not on the initial press.
10 Infotainment System

Press and Hold

Press and hold can be used to start another gesture, move, or delete an application.

Drag

Drag is used to move applications on the Home Page, or to pan the map. To drag the item, it must be held and moved along the screen to the new location. This can be done up, down, right, or left.

Nudge

Nudge is used to move items a short distance on a list or a map. To nudge, hold and move the selected item up or down to a new location.

Fling or Swipe

Fling or swipe is used to scroll through a list, pan the map, or change page views. Do this by placing a finger on the screen then moving it rapidly up and down or right and left and releasing the finger from the screen.

Turn

Turn the MENU knob or ☐ / VOL (Volume) knob on the faceplate to perform functions such as tuning the radio or scrolling lists.
Cleaning High Gloss Surfaces and Vehicle Information and Radio Displays

For vehicles with high gloss surfaces or vehicle displays, use a microfiber cloth to wipe surfaces. Before wiping the surface with the microfiber cloth, use a soft bristle brush to remove dirt that could scratch the surface. Then use the microfiber cloth by gently rubbing to clean. Never use window cleaners or solvents. Periodically hand wash the microfiber cloth separately, using mild soap. Do not use bleach or fabric softener. Rinse thoroughly and air dry before next use.

Software Updates
See the website for more information.

Website Information
In the U.S., see www.chevrolet.com
In Canada, see www.chevrolet.gm.ca

Radio

AM-FM Radio

Playing the Radio

While on the audio main page the available sources are: AM, FM, XM (if equipped), My Media, USB, SD, Bluetooth, and AUX Input.

- Press the RADIO screen button or on the faceplate to scroll through AM, FM, or SiriusXM (if equipped).
- Press the MEDIA screen button or on the faceplate to scroll through My Media, USB, SD, Bluetooth, and AUX Input.

Infotainment System Settings

Press the RADIO screen button or on the faceplate to access broadcast sources.

Press the MENU screen button or menu knob to display the following menus:

Tone Settings:
- Bass, Midrange, Treble, Surround (if equipped): Press + or - to adjust. Surround adjusts the headrest speaker volume only.
- Balance: Press < or > for more sound from the left or right speakers. The middle position balances the sound between the left and right speakers.
- Fade: Press \ or / for more sound from the front or rear speakers. The middle position balances the sound between the front and rear speakers.

Tag Song: Press to bookmark a song on an Apple device for later purchase using iTunes®.
12 Infotainment System

Timeshift: Timeshift is the recording of a radio station for up to 25 minutes. See “Timeshifting” later in this section.

DSP Modes:
- If equipped with Bose Surround® sound system, it will have three DSP modes including:
  - Normal: Adjusts the audio to provide the best sound for all seating positions.
  - Driver: Adjusts the audio to provide the best sound for the driver.
  - Centerpoint: Creates a surround sound from nearly any audio source.

Auto Volume: If equipped, this feature adjusts the volume based on vehicle speed. The options are OFF, Low, Medium - Low, Medium, Medium - High, or High. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Bose AudioPilot® Noise Compensation Technology (If Equipped): This feature adjusts the volume based on the noise in the vehicle. When turned on, AudioPilot detects noise and vehicle speed to continuously adjust the audio signal so that music will sound the same at a set volume level. This feature is most effective at lower radio volume settings where background noise can affect how well the music is being played. See www.bose.com/audiopilot. This feature can be turned on or off. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

EQ (Equalizer): If equipped with a Bose Sound System, the available choices are Manual and Talk.

HD Radio: If equipped, for AM and FM only, press to turn HD Radio® reception on or off. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Update Station List: For AM and FM only, press to update the station list. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Finding a Station

Seeking a Station

Press or on the faceplate to search for the previous or next strongest station.

Tuning a Station

Turn the MENU knob to manually search for a station.
Storing Radio Station Presets
Favorites are stored in the area at the bottom of the screen.
Up to 60 preset stations can be stored:

**AM, FM, XM (if equipped), HD Radio Stations:** Press and hold a screen button to save the current station as a favorite. Press a screen button in the favorite area to recall a favorite station.

**Mixed-Audio Favorites**
Favorites that can be stored include radio stations, navigation, applications, contacts, tone settings, artists, songs, albums, podcasts, etc.

<table>
<thead>
<tr>
<th>AM</th>
<th>FM</th>
<th>XM (if equipped)</th>
<th>HD Radio Stations</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRIF</td>
<td>99.5</td>
<td>3</td>
<td>Mike</td>
</tr>
<tr>
<td>99.5</td>
<td>Coffee</td>
<td>8</td>
<td>9</td>
</tr>
<tr>
<td>11</td>
<td>Tag</td>
<td>Tone 1</td>
<td>Tone 2</td>
</tr>
</tbody>
</table>

To scroll through the favorites:
- Drag on the top line of the screen buttons along the bottom to raise up the favorites. To close the favorites, drag them down.
- Slide a finger to the right or left to scroll through each page of favorites. A indicates which page is being viewed.

**Tone Settings:** Press and hold a screen button to save the current tone settings as a favorite in the tone settings screen. Press on the bottom of the screen to display Favorites. Press a screen button in the favorite area to recall a favorite tone setting.

**Pandora Radio Stations:** Press and hold a screen button to store the Pandora application. Pandora favorite stations work when Pandora is launched.
The number of favorites displayed is automatically adjusted by default, but can be manually adjusted in the Settings menu under Radio and then Manage Favorites.

**Timeshifting**
The audio system can record live radio for up to 25 minutes. When tuned to a station, the system automatically begins recording the audio along with the associated metadata.
14 Infotainment System

Press II to pause playback of the audio and to initiate timeshift mode. Press ► to resume playback of the live audio.

When timeshifting begins, a time is indicated on the right of the play/pause indicator. This time initially indicates the time of day at which playback is paused. This time continues to show as long as the system is in a paused mode and the buffer continues to fill.

Buffer Reset
The buffer will reset anytime the broadcast band or stations/channels are changed. Changing to a media source when the pause button is pressed will not reset the buffer.

Rewinding or Fast Forwarding a Timeshifted Broadcast
- Press and hold the rewind indicator to reverse playback at a rate of 15 times the rate of normal playback.
- Press and hold the fast forward indicator to advance playback at a rate of 15 times the rate of normal playback. The timeshift buffer can be advanced up to the end of the timeshift buffer and return to live mode.

Returning to Live Broadcast
If listening to timeshifted radio, press ► to fast forward back to live radio.

Timeshifting and Station/Channel Lists
If browsing a station/channel list is started while listening to the timeshift content, the list content is shown in live time, not buffered time.

Skipping Back in a Broadcast
For programs with metadata, pressing the previous button less than five seconds into a program will make the system skip to the beginning of the previous program. If more than five seconds into the current song/program, the system starts at the beginning of the current program. If no metadata is available, the system skips back 30 seconds.

Reaching the End of the Buffer
If the audio is paused and the 25-minute buffer is reached, the buffer continues recording the latest content and will erase the oldest content. When playback is started, the content played will be the last 25 minutes in the buffer.

HD Radio Technology
If equipped, HD Radio Technology is a free service with features such as static-free sound; more programming choices on local FM HD2, HD3, and higher; and on-screen information such as artist and song title.

Channel Access
To access HD Radio channels:
1. Tune the radio to the channel. HD Radio must be turned on in the Menu. If the channel is broadcasting HD Radio
Technology, the radio will automatically switch to digital audio, indicated with an HD Radio Technology logo.

2. Press ‹‹ or ›› on the faceplate, or turn the MENU knob to tune to the previous or next HD Radio channel.

There may be a delay before the channel starts playing.

The HD Radio channel number is indicated next to the logo.

HD Radio channels can be saved as favorites. Songs can be tagged for download to a connected iPod touch®.

When connected to iTunes®, the Sync button on the device may need to be pressed to transfer the tags to iTunes.

See AM-FM Radio on page 11 or USB Port on page 21.

For a list of all channels, see www.hdradio.com.

**Troubleshooting**

**Digital Audio Delay:** Wait for the signal to process. This can take several seconds.

**Volume Change, Audio Skip, Echo, Digital Audio Lost:** Channel signal strength may be weak or the channel is out of range. Verify proper reception on another channel.

If the HD Radio signal loses reception while listening to channel HD1, the radio will go back to the main non-HD Radio channel.

If the HD Radio signal loses reception while listening to channels HD2 to HD8, the radio mutes until the signal can be recovered or until the channel is changed.

HD can be disabled if driving in a weak signal area. Press Menu from the AM/FM screens, then press HD Radio to toggle HD on or off.

**Satellite Radio**

**SiriusXM® Satellite Radio Service (If Equipped)**

Vehicles with a valid SiriusXM satellite radio subscription can receive SiriusXM programming.

SiriusXM satellite radio has a wide variety of programming and commercial-free music, coast to coast, and in digital-quality sound. See www.siriusxm.com or call 1-866-635-2349 in the U.S. In Canada, see www.xmradio.ca or call 1-877-209-0079.
16 Infotainment System

When SiriusXM is active, the station name, number, category name, song title, and artist display on the screen.

**SiriusXM Menu**

Pressing the MENU screen button may display the following:

**Tone Settings:** Press + or − to adjust the tone settings. See AM-FM Radio on page 11.

**Tag Song:** Press the Tag Song button to tag the current artist and song information.

When connected to iTunes®, the Sync button on iTunes may need to be pressed to transfer the song tags.

**TuneSelect:** For SiriusXM only, this feature allows for alerts to be set for artists or songs that are played on any channel. Press TuneSelect on the menu during playback of a desired song or artist to set an alert. Press Manage TuneSelect to turn the alerts On and Off or manage the saved selection of Artists or Songs.

To unselect an alert, press the Song or Artist. To delete an alert, press −. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

**Auto Volume:** If equipped, this feature adjusts the volume based on the vehicle speed. See AM-FM Radio on page 11.

**Bose AudioPilot Noise Compensation Technology:** If equipped, this feature adjusts the volume based on the noise in the vehicle. See AM-FM Radio on page 11.

**Radio Reception**

Unplug electronic devices from the accessory power outlets if there is interference or static in the radio.

**FM**

FM signals only reach about 16 to 65 km (10 to 40 mi). Although the radio has a built-in electronic circuit that automatically works to reduce interference, some static can occur, especially around tall buildings or hills, causing the sound to fade in and out.

**AM**

The range for most AM stations is greater than for FM, especially at night. The longer range can cause station frequencies to interfere with each other. Static can also occur when things like storms and power lines interfere with radio reception. When this happens, try reducing the treble on the radio.

**SiriusXM® Satellite Radio Service**

If equipped, SiriusXM Satellite Radio Service provides digital radio reception. Tall buildings or hills can interfere with satellite radio signals, causing the sound to fade in and out. In addition, traveling or standing under heavy foliage, bridges, garages, or tunnels may cause loss of the SiriusXM signal for a period of time.
Cell Phone Usage

Cell phone usage, such as making or receiving phone calls, charging, or just having the phone on may cause static interference in the radio. Unplug the phone or turn it off if this happens.

Diversity Antenna System

The AM-FM antenna is a hidden self-tuning system. It optimizes the AM and FM signals relative to the vehicle’s position and radio station source. No maintenance or adjustments are needed.

Satellite Radio Antenna

If equipped with SiriusXM Satellite Radio, the antenna is under the left front fender. The antenna is hidden from view and not adjustable.

Pandora Internet Radio

Pandora® is a free Internet radio service that streams personalized radio stations based on artists, tracks, genres, and comedians. Create stations using the Pandora website or Smartphone application, then use 👍 (thumbs up) or 😞 (thumbs down) to personalize stations. To set up an account, or for more information, go to www.pandora.com. Pandora may not be available in Canada.

A phone or tablet with Internet connection and the Pandora application installed is required. Personal cell phone data plans are used. Make sure the latest version is installed on the device.

Launching Pandora

Connect the iPhone to the USB port, or connect Android™ or BlackBerry® through Bluetooth. See Auxiliary Jack on page 25 or Bluetooth (Overview) on page 73 or Bluetooth (Infotainment Controls) on page 74 or Bluetooth (Voice Recognition) on page 78. For first time use, set up the stations before connecting to the vehicle.

Using the iPhone

1. Plug the device into the USB port. The phone screen must be unlocked.
18 Infotainment System

2. Launch Pandora directly from the Home Page by pressing the Pandora icon.

If nothing happens when the available Pandora screen button is pressed, download the latest Pandora application and retry.

The login screen may display on the device.

Using an Android or BlackBerry Phone
The BlackBerry phone must be unlocked to launch Pandora service.

1. Pair the phone using Bluetooth.
2. Press Pandora on the Home Page to launch the service.
3. If nothing happens when the available Pandora screen button is pressed, download the latest Pandora application and retry.

The login screen may display on the device.

Pandora Menus
Press Menu on the Pandora main page.

Pandora has a menu system with the following:

**Tone Settings:** Press to adjust the tone settings. See *AM-FM Radio on page 11.*

**Bookmark Artist:** Press to bookmark the artist.

**Bookmark Song:** Press to bookmark the song.

**Auto Volume:** This feature sets the auto volume based on the speed of the vehicle and noise in the vehicle. See *AM-FM Radio on page 11.*

**Bose AudioPilot:** If equipped, this feature adjusts the volume based on the noise in the vehicle. See *AM-FM Radio on page 11.*

Pandora Features

**Thumbs Down:** When pressed, Pandora stores this information, changes to the next track, and does not play this track on this station again. This helps Pandora choose which tracks should not play on this station. This feature is only available on user created stations.
(Thumbs Up): When pressed, Pandora stores this information and is highlighted for the remainder of the track. This helps Pandora choose which tracks should play on this station.

(Next Track): When pressed, Pandora changes to the next track.

or (Play/Pause): Press to play or pause playback.

Pandora Skip Limit
Pandora limits the number of skips allowed on their service to five skips including thumbs down. or next track will not work when skip limit is reached, but the feedback will be recorded.

Advertisements on Pandora
Pandora may display advertisements. The artist name and track title will not be displayed and the skip track button will not be available.

Pandora Troubleshooting
Unable to Connect Device to Vehicle
If the device is unable to connect to the USB or Bluetooth:
1. Turn the vehicle off.
2. Take the Remote Keyless Entry (RKE) transmitter at least 6 m (20 ft) away from the vehicle.
3. Wait about 30 seconds, and try to connect the device again. See Bluetooth (Overview) on page 73 or Bluetooth (Infotainment Controls) on page 74 or Bluetooth (Voice Recognition) on page 78.

Unable to Start Pandora
If the device is unable to launch Pandora:
• Check that the latest version of Pandora is installed.

• Check that there is an active account logged into Pandora. Pandora will not work during an active call.
• Have at least one station created.
• For Android and BlackBerry devices, check that the device is paired with the vehicle, and whether the device displays in the Connected phone sources list under the Phone icon from the Home Page.
• For an iPhone, check that the USB cable is connected to the USB port and the screen is unlocked.
• Close Pandora on the device and launch again. Devices that allow multitasking may require an extra step to quit the Pandora application. See the cell phone manufacturer's user guide.
20 Infotainment System

Thumbs Up or Thumbs Down Error
If there is an error trying to rate a track with the ⌘️ or ⌘️ buttons, the message “Thumbs Down Error” or “Thumbs Up Error” will display. Press OK to dismiss.

Loss of Audio
Loss of Pandora audio can happen in different ways:
• Weak or lost data connection.
• Device needs to be charged.
• Application needs to be relaunched.
• Connection between phone and radio lost.
• An iPhone is connected to both Bluetooth and the USB port.

If there is a loss of audio, playback can be resumed by changing the audio flow from Bluetooth to USB cable.

To change the audio flow:
1. While the iPhone is connected, double tap the phone’s home button.
2. Swipe a finger to the left on the phone’s screen display. A box with a triangle on the lower line of the box that is highlighted, displays. Press this box to display the dock connector option.
3. Select “Dock Connector.”

Common Pandora Messages
Pandora Error/Please Check Connected Device: Not signed in or Pandora is down for maintenance.
No Stations Available: No stations are available on the Pandora server through the connected device.

Action Unavailable Please Check Device: A few conditions for loss of Internet connection are:
• The connected device loses its cellular connection.
• The device does not support Internet connectivity.
• The device is not in the vehicle.
• No Bluetooth signal.
No Skips Remaining for This Station or Permitted During Advertisements:
• The maximum Pandora skip limit has been reached according to the plan that was obtained.
• Skipping an advertisement was tried.

See www.pandora.com/help. If the service will not work, see your dealer for assistance.
Audio Players

USB Port

This vehicle is equipped with one SD card reader and three USB ports. The SD card reader and two USB ports are in the center console. The other USB port is in the storage area behind the radio display screen. The system is optimized to support two connected devices with a total of 100,000 songs.

Playing from a USB

A USB mass storage device can be connected to the USB port.

Audio extensions supported by the USB are:

- MP3
- WMA
- AAC
- OGG
- AIFF
- 3GPP

Gracenote®

When plugging in a USB device, Gracenote service builds voice tags for music. Voice tags allow artists, albums with hard to pronounce names, and nicknames to be used to play music through voice recognition.

While indexing, infotainment features are available.

My Media Library

Allows access to content from all indexed media sources. Press the MEDIA screen button to scroll through the options until My Media is selected. Use gestures or screen buttons to scroll through the content.

USB MP3 Player and USB Drives

The USB MP3 players and USB drives connected must comply with the USB Mass Storage Class specification (USB MSC).

To play a USB device:

1. Connect the USB.

2. Press MEDIA until the connected device is shown.

- Hard disk drives are not supported.
- The following restrictions apply for the data stored on a USB MP3 player or USB device:
  - Maximum folder structure depth: 11 levels.
  - Applicable audio extensions are mp3, wma, aac, m4a, and aif.
  - WMA and Apple lossless files are not supported.
  - Supported file systems are FAT32 and NTFS.

Use the following when playing an active USB source:

▶ (Play): Press to play the current media source.

II (Pause): Press to pause play of the current media source.
22 Infotainment System

(Previous/Reverse):
- Press to seek to the beginning of the current or previous track. If the track has been playing for less than five seconds, the previous track plays. If playing longer than five seconds, the current track restarts.
- Press and hold to reverse quickly through playback. Release to return to playing speed. Elapsed time displays.

(Next/Fast Forward):
- Press to seek to the next track.
- Press and hold to advance quickly through playback. Release to return to playing speed. Elapsed time displays.

USB Menu
Press Menu to display the USB menu. The following may be available:

Shuffle: Press to play the tracks randomly. Press again to stop shuffle.

Bose AudioPilot Noise Compensation Technology:
If equipped, this feature adjusts the volume based on the noise in the vehicle. See AM-FM Radio on page 11.

Tone: Press + or – to adjust the tone settings. See AM-FM Radio on page 11.

USB Browse Menu
Press the browse button to view the browse menu and the following options are displayed along the bottom of the screen:

Playlists:
1. Press to view the playlists stored on the USB.
2. Select a playlist to view the list of all songs in that playlist.
3. Select a song from the list to begin playback.

Artists:
1. Press to view the list of artists stored on the USB.
2. Select an artist name to view a list of all albums by the artist.
3. To select a song, press All Songs or press an album and then select a song from the list.

Albums:
1. Press to view the albums on the USB.
2. Select the album to view a list of all songs on the album.
3. Select a song from the list to begin playback.

Songs:
1. Press to display a list of all songs on the USB.
2. To begin playback, select a song from the list.

Genres:
1. Press to view the genres on the USB.
2. Select a genre to view a list of all content of that genre.
3. Select an artist to list albums, select an album to list songs, select a song to start playback.

Podcasts, Composers, Audio Books, Videos, and Folder View (if equipped) are shown when More is selected from the bottom of the screen.

Podcasts:
1. Press to view the podcasts on the USB.
2. Select a podcast.
3. Select episodes.

Composers:
1. Press to view the composers on the USB.
2. Select Composer to view a list of albums by that composer.
3. Select an album to list songs on that album.
4. Select a song from the list to begin playback.

Audiobooks:
1. Press to view the audiobooks stored on the iPod.
2. Select the audio book from the list to view a list of chapters.
3. Select a chapter to begin playback.

Folder View:
1. Press to view the directories on the USB.
2. Select a folder to view a list of all files.
3. Select a file from the list to begin playback.

File System and Naming
File systems supported by the USB are:
- FAT32
- NTFS
- HFS+

The songs, artists, albums, and genres are taken from the file's song information and are only displayed if present. The radio displays the file name as the track name if the song information is not available.

Supported Apple® Devices
The following Apple devices are supported:
- iPod touch® (5th generation)
- iPod touch® (4th generation)
- iPod touch® (3rd generation)
- iPod touch® (2nd generation)
- iPod touch® (1st generation)
- iPod nano® (7th generation)
- iPod nano® (6th generation)
- iPod nano® (5th generation)
- iPod nano® (4th generation)
- iPod nano® (3rd generation)
- iPod nano® (2nd generation)
- iPod nano® (1st generation)
- iPod classic®
- iPod® with video
24 Infotainment System

- iPhone® 5
- iPhone® 4S
- iPhone® 4G

The latest software update may be needed.

Loss of Audio

Do not pair the Bluetooth of an iPhone that is connected and using the iPod feature under vehicle media sources. If an attempt to pair the Bluetooth of the same connected phone is made, the system will automatically mute the iPod audio.

If there is a loss of audio, playback can be resumed by changing the audio flow from Bluetooth to USB cable.

Other phones such as the Droid phones may have a similar reaction.

Bluetooth Streaming Audio and Voice Recognition

See Bluetooth Audio on page 26 for information using voice recognition with Bluetooth streaming audio.

Make sure all devices have the latest software downloaded.

Storing and Recalling Media Favorites

To store media favorites, press and hold an open favorite during media playback to display a list of media types. Select from this list.

The media types that may display are:

Genres: Press to store the current genre as a favorite. Press a screen button in the favorite area to recall a favorite genre. The first song of the genre begins to play.

Artists: Press to store the current artist as a favorite. Press a screen button in the favorite area to recall a favorite artist. The first song in the artist list begins to play.

Songs: Press to store the current song as a favorite. Press a screen button in the favorite area to recall a favorite song.

Podcasts or Podcast Episode: Press and hold a screen button to store the current podcast as a favorite. Press a screen button in the favorite area to recall a favorite podcast or podcast episode. The podcast or podcast episode begins to play.

Audiobooks: Press and hold a screen button to save the current audiobook as a favorite. Press a screen button in the favorite area to recall a favorite audiobook. The first song in the audiobook list begins to play.
recall a favorite audiobook; the first chapter in the audiobook begins to play.

**SD Card Reader**

This vehicle has an SD card reader in the center console.

Set up the SD card while the vehicle is in P (Park). See “Audio” under Using the System on page 8.

Place the card into the port.

If an SD card has already been connected, but a different source is currently active, press the MEDIA screen button to scroll through the audio source screens until SD card displays.

Press the SD source menu to display the SD card options such as play/pause and previous or reverse.

These same options are described earlier for the USB menu source. See USB Port on page 21.

This vehicle may also have an SD card reader in the glove box.

**Auxiliary Jack**

This vehicle has an auxiliary input jack in the center console under the armrest. Possible auxiliary audio sources include:

- Laptop computer
- Audio music player
- Portable CD player

This jack is not an audio output. Do not plug headphones into the auxiliary input jack. Set up an auxiliary device while the vehicle is in P (Park).

Connect a 3.5 mm (1/8 in) cable from the auxiliary device to the auxiliary input jack. When a device is connected, the system can play audio from the device over the vehicle speakers.

If an auxiliary device has already been connected, but a different source is currently active, press the MEDIA faceplate button or MEDIA screen button to scroll through audio source screens, until AUX source screen displays.

**Playing from the AUX Port**

An auxiliary device is played through the audio system and controlled through the device itself.

**AUX Menu**

Press the MENU knob to display the AUX menu and the following may display:

**Tone Settings:** Select to adjust Bass, Midrange, Treble, Balance, Fade, and EQ (Equalizer). See AM-FM Radio on page 11.

**Bose® AudioPilot®:** If equipped, this feature can be turned on or off. See “Bose® AudioPilot®” in AM-FM Radio on page 11.

**EQ (Equalizer) Settings:**

If equipped, this feature adjusts the pre-defined EQ modes. See “EQ (Equalizer) Settings” in AM-FM Radio on page 11.
26 Infotainment System

DSP Modes: If equipped with a Bose® Surround Sound System, this feature adjusts the DSP modes. See “DSP Modes” in AM-FM Radio on page 11.

Bluetooth Audio

If equipped, music may be played from a paired Bluetooth device. See Bluetooth (Overview) on page 73 or Bluetooth (Infotainment Controls) on page 74 or Bluetooth (Voice Recognition) on page 78 for help pairing a device.

Volume and song selection may be controlled by using the Infotainment controls or on the phone/device. If Bluetooth Audio is selected and no volume is present, check the volume setting on both your phone/device and the Infotainment system.

Music can be launched by pressing the MEDIA screen button on the Home Page.

To play music via Bluetooth:
1. Power on the device, and pair to connect the device.
2. Once paired, go into the audio application from the Home Page or via the applications tray. Select MEDIA until Bluetooth displays.

Bluetooth Audio Menu

Press the MENU screen button or menu knob to display the Bluetooth Audio menu. The following may be available:

Bose AudioPilot: If equipped, this feature adjusts the volume based on the noise in the vehicle. See AM-FM Radio on page 11.

Tone: Press + or − to adjust the tone settings. See AM-FM Radio on page 11.

Manage Bluetooth Devices: Press to go to the Bluetooth page to add or delete devices.

When selecting Bluetooth audio source, the radio may not be able to launch specific applications on the device. Use the device to start audio playback when it is safe to do so.

All devices launch audio differently. When selecting Bluetooth audio as a source, the radio may show as paused on the screen. Press play on the device or press ▶ to begin playback.

Some phones support sending Bluetooth music information to display on the radio. When the radio receives this information, it will check to see if any is available and display it. For more information about supported Bluetooth features, see www.gm.com/bluetooth.
Navigation

Using the Navigation System

Press the NAV button on the Home Page or the Navigation icon in the applications tray to access the navigation application.

Press MENU from the map view to access the Navigation Menu. Features displayed in the Navigation Menu can be selected to adjust navigation preferences.

To exit out of a list, press the EXIT screen button in the top right corner of the map to return to the main map view.

It is advised to set up preferences before setting a destination. To set a destination, see Destination on page 37.

Additional navigation features are:
- Cancel/Resume Route
- Navigation Voice Preferences
- Current Location
- Traffic
- Map View
- Routing Preferences

Cancel/Resume Route

- While under route guidance, this screen button displays Cancel Route. Press Cancel Route to cancel route guidance. No further prompts will be given. The list item then changes to Resume Route.
- Press the Resume Route screen button to resume route guidance to the last entered destination.
- The last location that the system has provided guidance to can be resumed by pressing on this list item.
- If the route includes waypoints, the entire route can be suspended using the End Route list item. When Resume Route is pressed, all waypoints are resumed for guidance.

- Display “Places of Interest” Icons
- Personal Data
28 Infotainment System

Navigation Voice Preferences
Press the Navigation Voice Preferences list item to adjust the voice preferences.

The following options can be adjusted:
- Voice Prompts ON/OFF
- Voice Volume
- Prompts During Phone Calls ON/OFF

Voice Prompts
Press the Voice Prompts list item to toggle voice prompts ON and OFF.

Voice Volume
Adjust the loudness of the audio feedback by pressing the – or + button. If a maneuver prompt is being played, and the main volume is adjusted, the prompt volume will update and be saved.

Prompts During Phone Calls
When enabled, the system plays a shorter prompt while on a phone call. This setting can be configured as to whether a prompt would be heard during a phone conversation.

When this setting is OFF, only the short alert tone is played when approaching the maneuver.

Current Location
Press the Current Location list item to display a Current Location list.

The following information is displayed on the Current Location list:
- Nearest Address
- Lat/Long
- Nearest Hospital
- Nearest Police Station
- Nearest Gas Station
- Nearest Roadside Assistance

Pressing on any of the options will display the destination details view for that location to allow you to begin guidance to the selected location.
Press the Nearest Address button and then the Save screen button to store the current location to the Address Book.

**Display Places of Interest Icons**

Places of Interest (POI) icons can be displayed on the map using this view.

- The POI icons can be turned ON and OFF. Press the check box next to the POI icon to display the icon.
- Press Clear All to reset the icons that are displayed on the map.
- A subcategory can be selected instead of the entire category. Press the list item itself rather than the check box. The subcategories will display. Select any of those categories to navigate down the hierarchy.
  - When a higher-level category has some of its subcategories selected, the checkmark next to it is grayed out. This indicates that only some of the categories below are shown. Press the grayed-out checkmark to turn all of the icons for that category on or off.

**Map View**

Press to select the desired map view. A checkmark appears to indicate a view has been selected.

- **3D View**
  The 3D View is a Heading Up view but it includes perspective. Map items will appear larger as the vehicle comes closer.

- **Heading Up View**
  The Heading Up View keeps the vehicle’s current heading at the top of the view. The vehicle icon always faces the top of the view as the map rotates.

- **North Up View**
  The North Up View keeps north at the top of the view. The vehicle icon is placed in the center of the view and rotates to indicate the heading for the vehicle.

- **Audio Information**
  Press to turn the audio information view on or off from the main map view. When ON, the audio information becomes an audio status pane. This allows for two lines of audio information in the status pane and enables the use of some Interaction Selector controls.
30 Infotainment System

The audio status screen contains:
- Station Frequency
- Artist Information
- Song Information
- ▶/II or ◄/▶ Station and Channel Controls

Press the ◄/▶ Station controls to go to the next or previous strong signal station or digital channel.

When the audio status pane displays Artist and Song Information, press the ◄/▶ controls to go to the next or previous track based on the current media mode.

Day/Night Mode
Press to access the Day/Night Mode menu.
The options are:
- Day Mode: Brightens the map background.
- Night Mode: Darkens the map background.
- Automatic: Adjusts the screen background automatically depending on the exterior lighting conditions.

Routing Preferences
Press the Routing Preferences list item to access the Routing Preferences menu. Options on how the routes are created for route guidance are listed on this menu.

Route Style
Press this list item to change the route type preferences.
The options are:
- Fast (default)
- Eco Friendly (if equipped)
- Short
- Configure Eco Profile

These preferences are used for all routes generated.

Route segment preferences are other options showing on the Routing Preferences menu.
This includes:
- Use Toll Roads ON/OFF
- Use Freeways ON/OFF
- Use Carpool Lanes ON/OFF
- Avoid Slow Traffic ON/OFF
- Use Tunnels ON/OFF
• Use Time Restricted Roads ON/OFF

**Traffic (If Equipped)**

Press to browse the traffic in the area as well as adjust the traffic settings. Where traffic information is available, it is displayed on the map.

Where live traffic flow data is available, it is displayed as a solid line adjacent to the road. The road is displayed in colors to show the flow rate as:

• **Black** – Stopped or Closed
• **Red** – Poor
• **Yellow** – Slow
• **Green** – Normal

There are several options on the Traffic menu:

• Show Nearby Traffic Incidents
• Show Flow On Map ON/OFF
• Show Icons On Map ON/OFF
• Traffic Routing Preferences
• Traffic Types

1. Press Show Nearby Traffic Incidents to access the Traffic List menu. This menu displays the incident symbol and highway name, along with the distance and heading to the incident.

2. Press on the incident to display additional details about the incident as well as an option to avoid that particular incident if it is along the current route.

**Traffic Routing Preferences**

The system can be configured as to how it reacts when receiving traffic information. Press Traffic Routing Preferences to access the Traffic Routing menu.

When this setting is OFF, the system will never take traffic conditions into account when creating routes. In addition, the two options below are grayed out.
32 Infotainment System

If one of the grayed-out options is pressed, it automatically turns the traffic avoidance feature ON and performs the desired selection.

The two options, Ask Me Before Avoiding and Automatically Avoid Traffic will adjust the system as follows:

- If the Automatically Avoid Traffic list item is pressed, the system will automatically adjust the route based on traffic without notifying the driver.
- If the Ask Me Before Avoiding list item is pressed, the system will always use Alerts to show when there is an incident and allow it to be avoided by pressing the avoid button.

Press to access the Traffic Types menu.

The system can be configured to filter out certain types of traffic events. If a particular type has been turned off, the system does not display it on the map, and does not alert the driver.

Personal Data

Data that the system has saved during the course of using the navigation system can be managed through:

- Address Book
- Recent Destinations
- My POIs (if equipped)
**Address Book Entries**

1. Press Edit Address Book to display the Address Book to edit.
2. Press Delete All Entries to delete the entire list of contacts. A pop-up displays to confirm.

**Recent Destinations**

- Press Delete Individual Destinations to display a recent destinations list. Select the individual entry to delete.
- Press Delete All Destinations to delete the entire recent destination list. A pop-up displays asking to confirm the deletion.

**Upload Saved Locations:** Press to upload any saved locations such as downloaded POIs and all entries in the vehicle address book to the USB device.

**Map Adjustments**

- Press Delete All My POIs to delete the entire list of categories. A pop-up displays asking to confirm the deletion.
- To exit out of a list, press the EXIT screen button in the top right corner of the map to return to the main map view.
- Press Upload Saved Locations to save the Vehicle Contacts list and any MyPOIs that have been saved to the vehicle.
- Once saved locations have been uploaded to a USB, they can be transferred to a different vehicle or restored to the current address book.

- ZOOM –/+(minus): Zoom out.
- ZOOM + (plus): Zoom in.

The zoom scales can be configured for English or metric units. To change from English to metric, see “Instrument Cluster” in the owner manual.

**Scroll Features**

- To scroll within the map, press anywhere on the map screen.
34 Infotainment System

- Nudge or slide a finger on the map; the map moves in the direction of the finger.
- Fling a finger on the map; the map will start scrolling in a short continuous scroll.
- Press a finger on the location on the map; the map recenters to the location that was pressed on.
- Press a finger twice on a location on the map; the map zooms in one level to the location that was pressed twice on.
- When the map is recentered away from being locked to the vehicle position, the crosshairs will show in the center of the map. As the map continues to be recentered, the crosshairs will remain on the screen. When the crosshairs are shown on the screen, a callout with more information displays. If the map is moved from the current location, the crosshairs will disappear along with the callout.
- Press a finger on the callout next to the crosshairs and the destination details view displays. From this view, route guidance can be received or saved to the vehicle’s contact list.
- When the map is recentered, the straight-line distance from the vehicle to the selected point is displayed in the callout. In addition, a heading direction in the form of an arrow is displayed to indicate the direction. The arrow is shown in relation to the current vehicle heading.
- Press a finger on a POI icon shown on the map; the name of the POI is shown in the address callout, along with the city name and state. If the callout is selected, the destination details view for the POI is shown.
- After panning the map away from the vehicle, press RESET to return the map back to the current position.
- Press the Overview button to quickly get a view of the entire route. The route Overview button takes the place of the RESET button while under route guidance. Press the RESET button to return the map to the current position.

Maps
The map database is stored in the internal flash memory that is used in the navigation system.

Detailed Areas
Road network attributes are contained in the map database for detailed areas. Attributes include information such as street names, street addresses, and turn restrictions. A detailed area includes all major highways, service roads, and residential roads. The detailed
areas include Places of Interest (POIs) such as restaurants, airports, banks, hospitals, police stations, gas stations, tourist attractions, and historical monuments. The map database may not include data for newly constructed areas or map database corrections that are completed after production. The navigation system provides full route guidance in the detailed map areas.

**Navigation Symbols**

Following are the most common symbols that appear on a map screen.

The vehicle symbol indicates the current position and heading direction of the vehicle on the map. When under route guidance, a circle with an arrow is added to the vehicle symbol which indicates the direction to the destination.

**Vehicle Address Callout**

Tap on the vehicle icon, the current address of the vehicle is overlaid on the map next to the vehicle icon in a callout. Another tap hides the information. Any address information about the vehicle's current location will be shown, including the street, city, and state names. Tap on this callout to save the current address to the vehicle address book.

The destination symbol marks the final destination after a route has been planned.

The waypoint symbol marks one or more set waypoints. A waypoint is a stopover destination point added to the planned route.

The estimated time to the destination displays. Press the Arrival button to toggle to duration and to the distance of the destination.
36 Infotainment System

Autozoom
As a maneuver is being approached, the map automatically zooms in to give greater detail. If lane guidance is available for the maneuver, this is also shown. When the system begins to autozoom, it zooms in to its minimum level. After the maneuver is performed, the system slowly zooms back out.

Driving on a Route
Maneuver Road Name
If the road name has multiple names, all names are shown.

The No GPS symbol appears when there is no Global Positioning System (GPS) satellite signal. When the GPS is gone, the vehicle position on the map may not be accurate.
If the road that the system has calculated for the next maneuver has an icon, it will be shown to the left of the maneuver road name. The distance to the maneuver is shown from the current location along the route to the maneuver.

**Off-Road Indication**

When driving in an area with no road showing on the map, the system transitions to off-road mode. The map displays a destination pointer in the Turn List area. The system will attempt to guide by showing a highlighted route starting at the nearest road. This road name is shown in the next maneuver name field at the top of the screen.

**Navigation Next Turn Maneuver Alert**

The navigation system has an alert feature. The navigation system may need to get the attention of the driver.

If not in the navigation application when a near maneuver prompt is given, it is shown as an alert. The alert contains the turn indicator and button to display the main navigation view, or dismiss the alert. The alert also contains the name of the street to turn on and a countdown bar.

**Destination**

If route guidance is not active, press the NAV screen button on the Home Page to access the map view. Press the Destination icon from the map view to enter a destination. Available methods of entering a destination are Voice Recognition, Address, Recent Destination, Contacts, and POIs. Several options can be selected to plan a route. Some destination items may be grayed out if no destination was previously entered or saved.

Another way to enter a destination is to connect to the OnStar® system and ask an OnStar Advisor to download a destination into the embedded navigation system. See *OnStar® System on page 56.*
38  Infotainment System

Press the DESTINATION button to go to the destination entry views.

Available Methods of Search

- Voice Recognition
- Address
- Recent Destinations
- Contacts
- POIs (Points of Interest)

Press the DESTINATION button and the last used destination view is shown. This mode is retained. The initial default is Address.

The keyboard can also be modified to include characters appropriate for the region configured in the vehicle settings.

✓ GO: Press to search for the destination details of an address or place of interest entered in the text field. Once the GO screen button is pressed, the activity indicator displays in the list of possible matches.

▼ (Dropdown Arrow): Press to display a list of matches.

When there are multiple matches, a dropdown arrow is shown after the autocomplete text. This dropdown displays an entire list of matches. Press the appropriate match without having to enter more text.

× (Delete): Press to delete the last typed character. Press and hold this screen button to clear the entire text field. If the entire text field has been deleted, this screen button becomes an Undo button. Pressing Undo will restore the deleted text.

Alpha-Numeric Keyboard

The keyboard is used in multiple locations throughout the system and can be used with many features. The navigation system uses the alpha-numeric system’s keyboard which includes 1 through 0, A through Z in QWERTY layout, hyphen, comma, period, Space, and Sym which would show additional characters needed.
Exit: Press to return to the previous Map view.

Sym: Press to show the symbol keyboard.

Space: Press to enter a space between characters or the words of a name.

▲ (Up Arrow): Press to display the Interaction Selector.

Special Characters

As the characters are typed on the keyboard, a pop-up of the letter pressed displays above the key that was pressed.

Continue to press and hold, and any additional special characters associated with that letter are displayed around the current letter. To select one of the special characters, slide a finger left or right to adjust the highlight of the special character.

Special Character List

The following characters have special characters beneath them:

<table>
<thead>
<tr>
<th>Character</th>
<th>Special Characters</th>
</tr>
</thead>
<tbody>
<tr>
<td>É - É E E E E E</td>
<td>More Characters: O - `</td>
</tr>
<tr>
<td>Y - Ý</td>
<td>- !</td>
</tr>
<tr>
<td>U - Û Û Û Û</td>
<td>S - ¥ £ $</td>
</tr>
<tr>
<td>l - í í í í í</td>
<td>&amp; - §</td>
</tr>
<tr>
<td>O - Õ Ó Ó Ó Ó</td>
<td>&quot; - «</td>
</tr>
<tr>
<td>A - À Á Á Á Á Á</td>
<td>? - ¿</td>
</tr>
<tr>
<td>S - b (for lowercase s) $ $</td>
<td>( { ] } )</td>
</tr>
<tr>
<td>L - Ł</td>
<td>.com -.net - .org</td>
</tr>
</tbody>
</table>

Address

- A destination can be searched by typing out the address, intersection, highway, or freeway entrance ramps on the keyboard. This information is typed and displayed in the information field. Press the search icon to start the search.

For example:

Address: 100 Main Center Crawford, State/Province (if needed)

Road Name: Main Rd

Intersection: North Square West Road Standish State/Province

Freeway: N-94

- State information does not have to be included in the search field if entering an address that is located in the same state.
40 Infotainment System

- Whenever the keyboard view is entered, the last text that was typed, even if it was not searched on, will display.

- A partial or complete address can be typed in the search field. If a partial address is typed, the system attempts to use local knowledge to fill in additional information. For example, if no city name or state are given, the system assumes a search for something in the current city or a nearby city in the current state. The system is also capable of recognizing address formats according to other regions.

If a destination address or location being entered is outside of the country, the country abbreviation must be added after the address. For example, if the current vehicle location is in Detroit MI and the destination is in Windsor, the correct input would be Windsor ON CAN.

**Intersection:** If looking for an intersection, type in the two street names and optionally the city and state/province of the intersection.

**On-Ramp:** If looking for the closest on-ramp as a destination, enter a highway name. The direction is not required but can be specified. The system will search for the closest on-ramp.

Also available is the Exit-Ramp. For example, N-94 Exit 42.

The keyboard can utilize an autocomplete function. Depending on the application, autocomplete matches entries that have been previously typed or are stored in a Recent Destinations list.

1. After a character has been typed, the system is able to start displaying matches that begin with that character. The matches continually become more refined as additional characters are entered.

2. If there are multiple matches for what has been entered, the first result alphabetically will be shown.

When there are multiple matches, a dropdown arrow is shown after the autocomplete text. This dropdown displays the entire list of matches. Press the appropriate match without having to enter more text.
3. If autocomplete does not show the results needed, press the delete screen button to clear the autocomplete from the entered field.

If there are no matches, a pop-up displays in response to show how the system understood the entered text and attempts to show how the text could be entered to help find the destination.

**Multiple Matches**

- If the search results in multiple matches, a list of matches is shown.
- Address search results are grouped by result type, in the order of Full Addresses, States, Cities, Intersections, and Streets. If no results are found in a particular group, that group is not shown. If only one type of result is found, the single type result screen is shown. Within each group, they are listed in Confidence order. This means that the closest match result will be at the top.
- Address searches can be sorted by Confidence, Distance, or Alphabetical Order.

**Spelling Mistakes**

The system is able to offer alternatives if the searched term is not found exactly. The system uses the closest term it finds and provides those results.

The system first searches the entered term exactly. If no matches are found, partial words are used.

An example is, when entering in an address, the system attempts to do a full match on the entire string. If it does not find a match, the house number is then considered an optional term and the system attempts to find the street and city name. The prefix and suffix of street names are also treated as optional terms. The search is first done by trying to match the prefix and/or suffix. If there is no match found, these terms are removed from the search to make the search more generic.

**Places of Interest (POI)**
42 Infotainment System

While at the Home Page, press the Nav screen button to display a view of the map. Press the Destination screen button to go to the destination entry views.

1. Press the POIs screen button to display a list of POI categories. The first list item in every POI list is a search function. For the highest level of categories, press the Search All screen button or select a category and search within that selection.

2. Select a POI category to display subcategories.

3. If a selected subcategory has no results in the surrounding area, the search is expanded until a result is found.

4. When a category is selected, the nearest locations are shown on the map and it lists the nearest 20 matches. If the limit is reached and no further matches display, there is a Show Next Results button to expand the search by another 10 results. The currently selected category or search term is shown in the title bar along with the number of matches shown in the list in parentheses.

5. Pan the map using the finger gestures to minimize the POI list and to interact with the map. The icons that were shown before continue to be displayed and updated. The list is also updated based on where the map was panned or zoomed. The search for POIs is constrained to where the map has been moved to. Press the list reveal button which is the arrow pointing right, near the left edge of the screen to display the list again.

6. If the search map is pressed to recenter, the crosshairs are shown to indicate the center of the new search location. If a POI icon is pressed on while in the full expanded map, a callout for that location displays. Press the callout to display the destination details view.
7. Press the map reset button to return the map to automatic zooming and searching. It is recentered around the vehicle’s position, the route, the destination, or another location that was specified for the search. The map RESET button is only displayed if the map was manually adjusted.

Press the List All screen button to display all of the matching results in a particular category with its subcategories.

Using the Keyboard
The POI can be searched by entering a POI name, category, name and category, or phone number on the keyboard.

For example, enter the information as:

**POI Name:** Worldwide Food
**POI Category:** Restaurants
**POI Name and Category:** Worldwide Food Restaurants
**POI Phone Number:** 0100222555

The POI keyboard search results will display in the order in which they were found.

Press the Sort button to change the sorting order by Confidence, Alphabetical, or Distance.

POI Search Location
If browsing for POIs or searching for results on a keyboard in a different location than what was searched previously, press the Search Near button to specify a different location.

If not under route guidance, the search area options are:

- Nearby (default)
- Another Location
44 Infotainment System

If under route guidance, the search area options are:
- Along Route (default)
- Nearby
- Near My Destination
- Another Location

Favorite POIs
Locations, categories, or a particular POI chain ID can be saved as Favorites in the POIs view.

Press and hold on a favorite location, then press on the category to be saved. Whenever a set of POIs is grouped, as in a category or a set of POIs that all belong to the same chain ID, the whole category or chain ID is saved in the favorites for recall. POIs are only grouped by chain when the sorting order is Alphabetical.

A POI search can also be saved as a Favorite. While in the POI search keyboard view, press and hold on a favorite location and the text that is currently typed in the keyboard will be saved. Press the Sort button to change the sorting order.

Recalling a POI Category or Chain
If a POI category or chain favorite is recalled, the system displays a list of matching results defaulting to nearby, but allows a search of other locations. Press the Search Near button to specify a different location.

Creating and Downloading Predefined POIs (My POIs)
In addition to the POIs already stored in the Infotainment system, predefined POIs can be created.

While creating a predefined POI, the GPS coordinates for longitude and latitude of the POI’s location and a descriptive name will need to be entered.

After creating the predefined POIs, they can be downloaded to the Infotainment system from either a USB stick or SD card.

Once downloaded, the POI data becomes a selectable destination in the My POIs menu.

Creating a Text File with Information
Create a text file by using a simple text editor software. Save this file with a name and extension of .csv, e.g. “TomsPOI.csv.”
Enter the POI information into the text file in the following format:

- Longitude coordinate, Latitude coordinate, “Name of POI,” “Additional information,” “Phone number.”

Example: 7.0350000, 50.6318040, “Michaels Home,” “123 Maple Lane,” “02379234567.”

- The GPS coordinates must be expressed in decimal degrees and can be taken from a geographical map. The additional information and phone number strings are optional.

- The POI name and the additional information string may not exceed 60 characters.

- POI information for each destination address must be entered in a single separate line.

Storing the POI on a USB Drive

In the root directory of a USB drive, create a folder name “myPOIs,” e.g. “F:\” is the root directory of the USB drive.

In the “myPOIs” folder, store the text file with your POIs, e.g. “F:\myPOIs\TomsPOIs.csv.”

Downloading the POI to the Infotainment System

Connect the USB drive or SD card containing the POI information to the USB port or SD card slot of the Infotainment system. A message displays prompting whether or not to download the POI information from the USB stick. All POIs found are saved even if they are in multiple folders.

Subfolders can also be created to organize the POIs into categories. For example, “F:\myPOIs \Restaurants\TomsPOIs.csv.”

If the message is dismissed or ignored, no POI information is downloaded. This prompt will not reoccur for the current ignition cycle.

When the system is finished downloading, a pop-up displays asking to specify a category for the new POIs, if desired.
46 Infotainment System

Importing and Overwriting Categories

When POIs are found on a media device, the date of the file is examined and compared to the date for the files already in the system. If the file being downloaded is newer than the one on the system, that particular category of POIs is overwritten. Any other POIs that had previously been saved in other categories are not affected.

Address Book Download

If an Address Book is found on the connected USB device, the same alert is used to indicate that locations have been found and they can be downloaded. If there is already content in the vehicle Address Book, the system prompts if the stored content should be overwritten. Select Save to overwrite the existing Address Book information. Select Cancel to abort the import of information.

Browsing Downloaded POIs

Access the downloaded POIs by selecting the My POIs list item in the POIs list.

Edit My POIs

Downloaded POIs can be edited at a category level. These POIs can either be deleted as an entire category or be reassigned as another category. To edit the categories:

- Select the Edit button at the main category view to edit the POIs. Edit buttons display next to each category name. There is no POI browsing in this mode, only edit functions are available.

- Once an action such as deleting or reassigning has been selected, the changes are saved immediately.

Changing POI Categories

POI categories can be assigned to a different category by using the same method as assigning a category for an Address Book entry. When editing, the right side of the screen displays the current category name.

Deleting POI

POI categories can be deleted by selecting Edit and then Delete. A pop-up displays to confirm the deletion.
Saved Destinations
Select a saved destination from the Contacts or Recent Destinations.

Contacts
Select the Contacts button to view the vehicle’s contact list or a connected Bluetooth device. Press the Change Contacts List screen button to switch between the vehicle’s contact list and the Bluetooth device’s contact list. If a particular contact has a single address associated with it, that contact has a Quick Route list item function button next to it. Contacts without this Quick Route button either have multiple addresses or no address at all. Press the Quick Route button to go to the Destination Details view.

Press on an address, either from the Quick Route on the contact list or a specific address from the contact detail list, to go to the destination view showing that address on the map.

Trips from Contacts can be saved and recalled. The order is based on when the trip was last used. When the trips are saved, they are given a default title of the final destination name. If there are no saved trips, this list item is hidden.

Favorite Destinations
- Destinations can be saved as Favorites for recall later. Depending on the favorite, when an address or POI favorite is recalled, the Destination Details View is shown.
- When a favorite address is being routed to, it is shown active. Press on the active favorite, to suspend that route.
- Save locations as Favorites for recall later in the Destination Details View.
- “Saved” trips from the Address Book.

Storing Favorites from the Contact Details List
A contact name or any of the contact’s information such as phone number, e-mail address, or address from Contact Details can be stored as a Favorite.
48 Infotainment System

- Press and hold on the favorite location while viewing a contact on the Contact Details List. The contact name and all contact information can be stored.
- Press to save as a favorite. The favorite label will be the name of the contact.
- Press on the Favorite to display the destination view.

Storing Favorites from Map

Favorite locations can be stored from the Map View.

If not under route guidance, the current vehicle location will be saved as a Favorite. If under route guidance, the final destination will be saved.

Route Guidance

- Press GO to go to the main navigation view and to start route guidance.
- If the system has an active route, a pop-up will display, "What would you like to do with this destination?" The options are: Add As Waypoint, Set New Destination, or Cancel.

- If a waypoint is added, it is placed in the location that leads to the most efficient route.
- There is a maximum number of waypoints that can be added to the system. When the maximum number has been reached, a pop-up displays indicating that a waypoint must be deleted before a new one can be added. Even after a waypoint has been deleted, it will be added to the recent destinations list for easy recall.
- To save a location, tap on the ▲ to display the Favorite buttons. Press and hold on a favorite location to save the shown location as a Favorite.
Estimated Time of Arrival (ETA) and Distance

- When under route guidance, the system shows the ETA or travel time, or the driving distance.
- The ETA and travel time are calculated using any available traffic information.
- If in a waypoint trip, the ETA, travel time, and driving distance are all shown relative to the final destination.
- The final ETA is shown taking into consideration any time zone crossings that the route has traveled through.

- Press the ETA information area to switch between the estimated arrival time, total driving time resulting, and driving distance.

Turn List

Press on the next turn indicator shown on the map to display the turn list or waypoint list. The Interaction Selector is minimized automatically. Press ▲ to reveal the following options:

Destination

Press the Destination screen button to add a waypoint or change the destination while viewing the turn list. When the Destination screen button is pressed, the display shows the Destination screens.

End

Press the End screen button to suspend the current route in the turn list. When the End Guidance screen button is pressed, the turn list is exited and the display returns to the main map view.

Avoid

Press the Avoid screen button to select the highway name that is to be avoided. The system shows a pop-up asking how many miles or if the entire road should be avoided.

Turn List

- When under a waypoint trip, press on the Turn List Interaction Selector button to show the turn list. When entering a turn list, the next maneuver instruction is spoken.
- The turn list title is the name or address of the destination. Press on the information button next to
the name of the destination to display the destination information.

- The turn list is sorted in order with the next maneuver at the top of the list and the subsequent maneuvers listed below it. The next maneuver is always highlighted upon entry into the Turn List to quickly show what the next maneuver is.
- Each maneuver indicates the distance between it and the previous maneuver or the vehicle’s current location. The next maneuver at the top will count down until the maneuver is reached, and then the next maneuver will begin to count down.
- Each maneuver has an estimated time of arrival based on the current driving conditions.

**Saved Trips**

Waypoint trips can be saved for later recall. Press the Add button in the waypoints list to save the trip to the Saved Trips list in the vehicle’s contacts list. When trips are saved, they are given a default title of the final destination. Saved trips can be edited by selecting the Edit list item button to access the edit screen for the saved entry. The only field that can be edited is the name field. Press on the name field to access the keyboard view. Type the name change. This change is automatically saved when executed by the keyboard.

The saved trip can also be deleted from the edit mode. Press the delete button and a delete confirmation pop-up will display.

**Waypoints**

- When under a waypoint trip, press on the next turn indicator to bring up the waypoint list. The last waypoint view is shown, which could be Waypoints, Turn List, or Edit Route.
- The waypoint list is sorted in order with the next waypoint at the top of the list. Each waypoint is indicated with a numbered icon, starting with the next waypoint.
- To indicate what segment of the route is for the next waypoint, and what is for the remainder of the route, they appear in different colors.
Optimized Route

- Press the Optimize screen button to optimize the current waypoint trip.
- The optimization is done according to how the preferences are set for new routes, e.g., fastest route, shortest distance, or eco friendly.
- While the system is optimizing the route, the waypoint trip has the Activity Indicator displayed over top of it. If the system is calculating the ETA and travel distance for a waypoint, the Activity Indicator is displayed in the list header.
- When either a waypoint trip is first created, or additional waypoints are added to an existing waypoint trip, they are added in the location that would lead to an optimized route.
- If a destination is already planned and a waypoint is added, it is either added before or after the current destination, whichever leads to the most optimal route.
- If under an existing waypoint trip consisting of two or more destinations, any additional waypoints are added in the location that would lead to the most optimal route.

Edit Route

- Press the Edit screen button to modify the order or remove a waypoint from the route. Press the delete screen button to remove a waypoint from the route.
- A pop-up displays asking for confirmation of the waypoint deletion.

SiriusXM Travel Link Weather (If Equipped)

SiriusXM Travel Link Weather is available on the navigation system through a service fee subscription.

From the Home Page, press WEATHER. The system displays the current weather page.

Current Condition

The current weather page displays:
- Doppler Map with Weather
- Forecast Information
- Interaction Selector
- Status
- Time of Map Update
- Applications Tray

Allow approximately 15 minutes for the current weather in the area to display.
52 Infotainment System

Weather Regions

When in the weather application, press the SEARCH screen button to display a split map. The list displayed on the left of the split map allows changes to the location.

The Doppler map and forecast information displays a preview of the map for the location selected. The forecast information is for the current weather or next available forecast data.

Press the EXIT screen button to return to the main weather map.

Press one of the options displayed on the Interaction Selector along the bottom of the map screen to select another function or display another type of list.

Weather Screen Not Under Guidance

The weather application uses the navigation system to provide the appropriate information for the guidance route. When not under guidance, it defaults to the current location.

Doppler Map: The Doppler map is shown with the vehicle location in the center of the map.

City and State: The city and state are displayed for the view currently shown. The default is the current city and state that the vehicle is in.

Forecast Information

- The map can be panned to another location. The forecast information is updated to the new location.
- The city and state update to reflect the current location.
- Press the RESET screen button to reset the map back to the current vehicle location.
Weather Menu

Press MENU on the Weather Interaction Selector along the bottom of the map screen to display the Weather Menu.

The options are:
- **Weather Advisories**: Any weather advisories in effect for the local area are displayed in a list. Press on an advisory from the list to display a screen that gives additional details about the advisory and shows the advisory location on the map.

**Interaction Selector**

The Interaction Selector at the bottom of the screen can be used to switch between different views within the weather screen.

These buttons are:
- **ZOOM** – or **ZOOM +**: Press to zoom the map in or out.
- **RESET**: Press to reset the map back to its original location.
- **SEARCH**: Press to search for a new weather map location. The last destination screen displays. Press any button along the bottom of the Interaction Selector to help find a different destination. These are **Cities**, and **Recent**.
54 Infotainment System

Press \( \text{g} \) to activate voice recognition. State a city and state or ZIP code. Follow the voice prompts to find the desired destination.

Press Cities to enter a city and state or ZIP code.

Press Recent to display a list of locations that were recently viewed for weather.

Type a city or state name on the keyboard screen to find the weather. If the state is omitted, the system assumes a city is being searched for within the current state. If the ZIP code is typed, the system displays the city associated with that ZIP code.

- If one match results from a weather search, the system returns to the map. The map and forecast information updates for that location.

- If there are multiple results from the weather search, a list of possible matches displays. The map shows the first match in the list along with the current weather information in the lower right corner.

  • HOURLY: Press to display the hourly forecast for the current vehicle location. A forecast icon is shown for each period available.

  • 36-HOUR: Press to display the current weather, six-hour forecast, and tomorrow’s weather. A forecast icon is shown for each period available.

  • DAILY: Press to display a daily forecast for the next five days. A forecast icon is shown for each period available.

  • MENU: Press to display the current advisories, turn weather alerts on or off, and view the map legend.

• ROUTE: Press to display the forecasted weather for the route. This feature is only available while under route guidance.

SiriusXM NavTraffic (If Equipped)

The infotainment system may have SiriusXM NavTraffic®. It is a subscription service provided through SiriusXM Satellite Radio. A service fee is required to receive the SiriusXM NavTraffic service.

Detailed traffic information is delivered to the vehicle’s navigation system by the SiriusXM Radio satellites. SiriusXM NavTraffic provides continuously updated traffic information.

The service may be available in more cities in the future. See www.siriusxmnavtraffic.com for more details on local coverage.

To access the traffic features, press the Traffic screen button on the Map Menu.
If traffic is not available because there is no valid SiriusXM subscription, a pop-up displays information on how to reactivate the subscription and SiriusXM radio ID.

**Traffic Alert While Under Guidance**

If data is received about a traffic development on the route ahead, a search for a better route is performed. If a better route is found, information may be displayed in an alert. This alert displays the route information and how much time may be saved. If the alternative route is accepted, the current route will be altered.

If the alert is not acknowledged, the alert automatically times out and does not modify the route.

The detail view of the incident shows any data about the incident as well as how much time could be saved by avoiding it. The map view shows the incident, the original route, and the suggested route. If voice prompts are enabled, the incident information is spoken. Press the Take New Route screen button to change to the new route.

**Traffic Alert While Not Under Guidance**

While driving and not under guidance, the system can receive data indicating an accident or slow traffic flow. The information about the incident or slow traffic is displayed as an alert when the incident is 5 km (3 mi) ahead. The incident can be viewed on the map. Press the Dismiss screen button to return to the previous map.
56 Infotainment System

SiriusXM Travel Link Movie Listings

A movie theater POI can be searched through a POI search or browsed through the POI category structure. When the details for a movie theater are shown, there is additional information about the theater. When SiriusXM Travel Link Movie Listings information is available for the selected theater, this detailed information is shown in the additional details area of the display.

The details shown depend on the source of the information.

Details shown can include:
- Movie Names
- Parental Ratings (G, PG-13, R, etc.)
- Showtimes
- Runtime

SiriusXM Travel Link Fuel Pricing

When SiriusXM Travel Link Fuel Pricing information is available for a particular fuel station, the price displays for the regular unleaded or diesel fuel, depending on the fuel type configured in the system.

This fuel station POI can either be searched for through a POI search or browsed through the POI category structure.

- Press the Sort button to change the sort method. The default sort method is based on distance with the closest fuel stations at the top of the list.
- Press the Sort button to cycle through the sorting options of distance, price, or name. The last viewed sorting method is displayed and retained over ignition cycles.

If the sorting method of price has been selected, the fuel stations in the list will appear from the lowest to the highest price based on the fuel type selected. For gasoline, the price shown is for regular unleaded. When diesel is selected as the fuel type, the diesel price is shown.

OnStar® System

An OnStar® Subscriber has the ability to connect to the OnStar system and ask an OnStar Advisor to download a destination into the built-in navigation system. OnStar will send address information and location coordinates of the destination into the navigation system.

OnStar Turn-by-Turn Navigation

![OnStar Turn-by-Turn Navigation](image)
Press the MENU button to go to the Turn-by-Turn menu.

The Turn-by-Turn menu consists of the following options:
- Update Route (only shows if the vehicle is off the route)
- Cancel Route
- My Destination
- Route Preview
- Repeat

When the system is downloading a route, the only option available is Cancel Route. Once the route is downloaded, the additional list items display.

My Destination
If My Destination is selected, a special version of the Maneuver View displays. The Destination Address is shown in the Street Name field and the total distance to the destination is shown in the Distance to Maneuver View. Press the DONE button to return to the Maneuver View.

Route Preview
- Press NEXT to display the next maneuver information, including distance between it and the previous maneuver.
- Press PREV to display the previous maneuver information, including distance between it and the previous maneuver.

While on the current maneuver, the PREV button is hidden. If on the last maneuver, the NEXT button is hidden.

- Press the DONE button to return to the Maneuver View.

Repeat
Select Repeat to go back to the Maneuver View. The audible maneuver prompt is repeated.
- If Route Preview is selected, a special version of the Maneuver View displays.
58 Infotainment System

No Active Route

There is no active route:

- If the vehicle does not have navigation and the navigation application is selected from the Home screen, a screen stating, “No Active Route” displays. Press the Call OnStar button.
- If the system receives the indication that there is an active OnStar subscription, the help text is displayed with instructions on how to set up a route.
- If the vehicle is not equipped with OnStar, the navigation application icon is removed from the home screen and applications tray, so this view is not accessible.

Mutually Exclusive from Embedded Navigation

If the vehicle has both a built-in navigation system and OnStar, the system only allows one application at a time. If an OnStar Turn-by-Turn route is in progress, all other internal navigation functions are disabled until the route is completed.

When the navigation application is selected, OnStar Turn-by-Turn screens display.

Canceling an Embedded Route

If a route is in progress using the vehicle navigation system and an OnStar Turn-by-Turn route is requested, the vehicle navigation system route is canceled automatically.

Canceling a Turn-by-Turn Route

If a route is in progress using OnStar Turn-by-Turn navigation system, and a route is requested using the vehicle navigation system, a pop-up is displayed confirming that the Turn-by-Turn route should be canceled.

OnStar Canceling an Embedded Navigation

OnStar is able to remotely cancel the vehicle navigation system routes. If an Advisor is requested while connected to OnStar, all active vehicle navigation routes in the vehicle will be canceled. There will be no confirmation, and this update will immediately be reflected on the display. Route guidance can be resumed by selecting the Resume Route screen button in the Map Menu.
Settings

Press Settings on the Home Page to adjust features and preferences, such as Time and Date, Sport Mode, Language, Valet Mode, or Radio. For setting options, see Settings on page 70.

A few of the setting options change the way the navigation system displays or reacts while in use.

1. Press the Settings screen button on the Home Page.
2. Press the scroll bar until the desired option displays. Select the desired settings to change.

Voice

Voice recognition allows for hands-free operation within the navigation, audio, phone, and weather applications. See Voice Recognition on page 62.

Press the voice screen button to display the Speech menu.

Prompt Length: Press to change the prompt length to Short or Long.

Audio Feedback Speed: Press to change the auto feedback speed to Slow, Medium, or Fast.

Confidence Threshold: Press to change the sensitivity of speech recognition system.

Display

Mode: Press Mode to change the screen background. This setting controls map colors.

- The Auto setting adjusts the screen background automatically depending on the exterior lighting conditions.

- The Day setting brightens the map background.
- The Night setting darkens the map background.

Calibrate Touchscreen: Press to display the Touchscreen Calibration Screen.

Turn Display Off: Press to turn the Display option off.

Low Fuel Alert

If the vehicle reaches a low fuel level, the system displays an alert about the low fuel condition. Press the More Info. screen button to view nearby gas stations, and start guidance if desired.
60 Infotainment System

The GPS shows the current position of the vehicle using signals sent by GPS Satellites. When the vehicle is not receiving signals from the satellites, a symbol appears on the map screen. See Navigation Symbols on page 35.

This system might not be available or interference can occur if any of the following are true:

- Signals are obstructed by tall buildings, trees, large trucks, or a tunnel.
- Satellites are being repaired or improved.

For more information if the GPS is not functioning properly, see Problems with Route Guidance on page 61 and If the System Needs Service on page 62.

Vehicle Positioning

At times, the position of the vehicle on the map could be inaccurate due to one or more of the following reasons:

- The road system has changed.
- The vehicle is driving on slippery road surfaces such as sand, gravel, or snow.
- The vehicle is traveling on winding roads or long straight roads.
- The vehicle is approaching a tall building or a large vehicle.
- The surface streets run parallel to a freeway.
- The vehicle has been transferred by a vehicle carrier or a ferry.
- The current position calibration is set incorrectly.
- The vehicle is traveling at high speed.

Global Positioning System (GPS)

The position of the vehicle is determined by using satellite signals, various vehicle signals, and map data.

At times, other interference such as the satellite condition, road configuration, condition of the vehicle, and/or other circumstances can affect the navigation system's ability to determine the accurate position of the vehicle.

If the remaining driving distance is available from the system, this is included in the alert.
The vehicle changes directions more than once, or the vehicle is turning on a turn table in a parking lot.

The vehicle is entering and/or exiting a parking lot, garage, or a lot with a roof.

The GPS signal is not received.

A roof carrier is installed on the vehicle.

Tire chains have been installed.

The tires are replaced or worn.

The tire pressure for the tires is incorrect.

This is the first navigation use after the map data is updated.

The 12-volt battery is disconnected for several days.

The vehicle is driving in heavy traffic where driving is at low speeds, and the vehicle is stopped and started repeatedly.

**Problems with Route Guidance**

Inappropriate route guidance can occur under one or more of the following conditions:

- The turn was not made on the road indicated.
- Route guidance might not be available when using automatic rerouting for the next right or left turn.
- The route might not be changed when using automatic rerouting.
- There is no route guidance when turning at an intersection.
- Plural names of places might be announced occasionally.
- It could take a long time to operate automatic rerouting during high-speed driving.
- Automatic rerouting might display a route returning to the set waypoint if heading for a destination without passing through a set waypoint.

- The route prohibits the entry of a vehicle due to a regulation by time or season or any other regulation which may be given.
- Some routes might not be searched.
- The route to the destination might not be shown if there are new roads, if roads have recently changed, or if certain roads are not listed in the map data. See Maps on page 34.

To recalibrate the vehicle's position on the map, park with the vehicle running for two to five minutes, until the vehicle position updates. Make sure the vehicle is parked in a location that is safe and has a clear view of the sky and away from large obstructions.
62 Infotainment System

If the System Needs Service

If the navigation system needs service and the steps listed here have been followed but there are still problems, see Problems with Route Guidance on page 61.

Map Data Updates

The map data in the vehicle is the most up-to-date information available when the vehicle was produced. The map data is updated periodically, provided that the map information has changed.

For questions about the operation of the navigation system or the update process, contact the GM Nav Disc Center toll-free phone number, 1-877-NAV-DISC (1-877-628-3472) or go to the center’s website, www.gmnavdisc.com. If updates are needed, call the GM Nav Disc Center or order online.

Voice Recognition

Voice recognition allows for hands-free operation within the navigation, audio, phone, and weather applications. This feature can be started by pressing either the button on the steering wheel or the voice recognition icon on the touchscreen display.

However, not all features within these areas are supported by voice commands. Generally, only complex tasks that require multiple manual interactions to complete are supported by voice commands.

For example, tasks that take more than one or two button presses such as selecting a song or artist to play from a media device would be supported by voice commands. Other tasks, like adjusting the volume or seeking up or down, are audio features that are easily performed by pressing one or two buttons, and are not supported by voice commands.

To order, have the vehicle’s Vehicle Identification Number (VIN) available. This helps the center make sure that the correct and most up-to-date map data for the vehicle is received. See “Vehicle Identification Number (VIN)” in the owner manual.

Database Coverage Explanations

Coverage areas vary with respect to the level of map detail available for any given area. Some areas feature greater levels of detail than others. If this happens, it does not mean there is a problem with the system. As the map data is updated, more detail can become available for areas that previously had limited detail. See Map Data Updates on page 62.

Voice Recognition

Voice recognition allows for hands-free operation within the navigation, audio, phone, and weather applications. This feature can be started by pressing either the button on the steering wheel or the voice recognition icon on the touchscreen display.

However, not all features within these areas are supported by voice commands. Generally, only complex tasks that require multiple manual interactions to complete are supported by voice commands.

For example, tasks that take more than one or two button presses such as selecting a song or artist to play from a media device would be supported by voice commands. Other tasks, like adjusting the volume or seeking up or down, are audio features that are easily performed by pressing one or two buttons, and are not supported by voice commands.

To order, have the vehicle’s Vehicle Identification Number (VIN) available. This helps the center make sure that the correct and most up-to-date map data for the vehicle is received. See “Vehicle Identification Number (VIN)” in the owner manual.
In general there are flexible ways to speak commands for completing the tasks. Most of them, except destination entry and voice keypad, can be completed in a single command. If the task takes more than one command to complete, the first command would be to indicate the kind of task to be performed, like "Navigation Destination Entry." The system replies with prompts that lead through a dialog to enter the necessary information. For example, if a destination for route guidance is needed, say "Navigation" or "Destination Entry."

Voice recognition can be used when the ignition is on or when Retained Accessory Power (RAP) is active. See "Retained Accessory Power (RAP)" in the owner manual.

**Using Voice Recognition**

Voice recognition becomes available once the system has been initialized. This begins when the ignition is turned on. Initialization may take a few moments.

1. Press $\mathit{\#}$ on the steering wheel control to activate voice recognition, or press $\mathit{\#}$ on the infotainment touchscreen on the center stack.
   - If voice recognition is started from the steering wheel control, the instrument cluster displays the selections and visual dialog content.
   - If voice recognition is started from the infotainment touchscreen on the center stack, the selections and visual dialog content are displayed on both the center stack display and the instrument cluster display.

2. The audio system mutes and the system plays a prompt followed by a beep.

3. Wait until after the beep completes, then clearly speak one of the commands described in this section.

   Press $\mathit{\#}$ to interrupt any voice recognition system prompt.

   For example, if the prompt seems to be taking too long to finish, press $\mathit{\#}$ again and the beep should happen right away.

There are two voice prompt modes supported:

- Long verbal prompts: The longer prompts provide more information regarding the supported actions.

- Short prompts: The short prompts provide simple instructions about what can be stated.

If a command is not spoken, the voice recognition system says a help prompt.
64 Infotainment System

Prompts and Screen Displays

While a voice recognition session is active, there will be corresponding buttons on screens displayed. Manual interaction in the voice recognition session is permitted. Interaction during a voice session may be completed entirely using voice commands, or some selections may expedite a session. If a selection is made using a manual control, the dialog will progress in the same way as if the selection was made through a voice command. Once the system is able to complete the task, or the session is terminated, the voice recognition dialog stops.

An example of this type of manual intervention is pressing on an entry of a displayed number list instead of speaking the number associated with the entry desired.

Canceling Voice Recognition

- Press the Home screen button. Pressing this button will terminate a voice recognition session which was initiated by pressing the button on the radio touchscreen.
- Press or say “Cancel” or “Exit” to terminate the voice recognition session and display the screen from which voice recognition was initiated.
- Press 🎤 on the steering wheel controls to terminate the voice session and display the screen from which voice recognition was initiated.

Helpful Hints for Speaking Commands

Voice recognition can understand commands that are either naturally stated in sentence form, or direct commands that state the application and the task. Not all languages are supported when using natural language commands.

If a naturally stated command does not complete the task, try the direct command method.

For best results:

- Listen for the prompt and wait for the beep before saying a command or reply.
- Say “Help” or look at the screen display for example commands.
- A voice recognition system prompt can be interrupted while it is playing by pressing 🎤.

For example, if the prompt seems to be taking too long to finish, to speak the command without waiting for the prompt to complete, press 🎤 again and wait for the beep.

- Speak the command naturally, not too fast, not too slow. Use direct commands without a lot of extra words.
• Usually Phone and Audio commands can be spoken in a single command.

For example, “Call David Smith at work,” “Play” followed by the artist or song name, or “Tune” followed by the radio station number.

• Navigation destinations are too complex for a single command. First, state a command that explains the type of destination needed, such as I want directions to an “Address,” “Navigate to an intersection,” “I need to find a Place of Interest or POI,” or “Directions to a Contact.” The system responds with requesting more details. After saying “Place of Interest,” only major chains are available by name. Chains are businesses with at least 20 locations. For other POIs, say the name of a category like “Restaurants,” “Shopping Malls,” or “Hospitals.”

There is no need to memorize specific command words. Direct commands might be more clearly understood by the system. An example of a direct command would be “Call 555-1212.” Examples of these direct commands are displayed on most of the screens while a voice session is active.

If “Phone” or “Phone Commands,” is stated, the system understands that a phone call is requested and will respond with questions until enough details are gathered.

If the phone number has been saved with a name and a place, the direct command should include both, for example “Call David Smith at work.”

Using Voice Recognition for List Options

When a list is displayed, a voice prompt will ask to confirm or select an option from that list. A selection can be made by manually selecting the item, or by speaking the line number for the item to select.

When a screen contains a list, there may be options that are available but not displayed. The list on a voice recognition screen functions the same as a list on other screens. Scrolling or flinging can be used to help display other entries from the list.

Manually scrolling or paging the list on a screen during a voice recognition session suspends the current voice recognition event and displays the prompt “Make your selection from the list using the manual controls, press BACK on the faceplate, or press the Back screen button to try again.”

If manual selection takes more than 15 seconds, the session terminates and prompts that it has timed out. The screen returns to the screen where voice recognition was initiated.
66 Infotainment System

The Back Command
Say “Back” or press BACK on the faceplate, or press the Back screen button to go to the previous screen.

If in voice recognition, and “Back” is stated all the way through to the initial screen, then “Back” is stated one more time, the voice recognition session will cancel.

Help
Say “Help” on any voice recognition screen and the help prompt for the screen is played. Additionally, a pop-up displays a text version of the help prompt. Depending on how voice recognition was initiated, the Help pop-up will either display on the instrument cluster or the infotainment touchscreen. Press the Dismiss button to make the pop-up go away.

Voice Recognition for the Radio
Pressing while the help prompt is playing will terminate the prompt and a beep will be heard. Doing this will stop the help prompt so that a voice command can be used.

“Switch to FM”: Switch bands to FM and tune to the last FM radio station.

“Switch to XM”: Switch bands to XM and tune to the last XM channel.

“Tune to <AM frequency> AM”: Tune to the radio station whose frequency is identified in the command (like “nine fifty”).

“Tune to <FM frequency> FM”: Tune to the radio station whose frequency is identified in the command (like “one oh one point one”).

“Tune to <AM frequency> AM HD”: Tune to the HD Radio station whose frequency is identified in the command.

“Tune to <FM frequency> FM HD”: Tune to the HD Radio station whose frequency is identified in the command.
“Tune to <FM frequency> FM HD <HD channel number>”**: Tune to the HD Radio station whose frequency and HD channel is identified in the command.

“Tune to XM <XM channel number>”**: Tune to the XM radio station whose channel number is identified in the command.

“Tune to XM <XM channel name>”**: Tune to the XM radio station whose channel name is identified in the command.

**Voice Recognition for Audio My Media**

If browsing My Media when the voice button is selected, the voice recognition commands for My Media features are available.

**“Play Artist”**: Begin a dialog to enter a specific Artist name.

**“Play Artist <artist name>”**: Begin playback of the media selection identified in the command.

**“Play Album”**: Begin a dialog to enter a specific album name.

**“Play Album <album name>”**: Begin playback of the identified album name in the command.

**“Play Song”**: Begin a dialog to enter a specific song name.

**“Play Song <song name>”**: Begin playback of the identified song name in the command.

**“Play Genre”**: Begin a dialog to enter a specific genre.

**“Play Genre <genre name>”**: Begin playback of the media selection identified in the command.

**“Play Playlist”**: Begin a dialog to enter a specific playlist name.

**“Play Playlist <playlist name>”**: Begin playback of the identified playlist in the command.

**“Play <device name>”**: Play music from a specific device identified by name. The device name is the name displayed on the screen when the device is first selected as an audio source.

**“Play Chapter”**: Begin a dialog to enter a specific name.

**“Play Chapter <chapter name>”**: Begin playback of the media selection identified in the command.

**“Play Audiobook”**: Begin a dialog to enter a specific name.

**“Play Audiobook <audiobook name>”**: Begin playback of the media selection identified in the command.

**“Play Episode”**: Begin a dialog to enter a specific name.
68 Infotainment System

“Play Episode <episode name>”: Begin playback of the media selection identified in the command.

“Play Podcast”: Begin a dialog to enter a specific name.

“Play Podcast <podcast name>”: Begin playback of the media selection identified in the command.

“Play Video”: Begin a dialog to enter a specific name.

“Play Video <video name>”: Begin playback of the media selection identified in the command.

“My Media”: Begin a dialog to enter the desired media content.

Handling Large Amounts of Media Content

It is expected that large amounts of media content will be brought into the vehicle. It may be necessary to handle large amounts of media content in a different way than smaller amounts of media.

The system may limit the options of voice recognition by not allowing selection of song titles by voice at the highest level if the number of songs exceeds the maximum limit. Voice command option changes through media content limits are:

- Song files including other individual files of all media types such as audiobook chapters, podcast episodes, and videos.
- Album type folders including types such as albums and audiobooks.

There are no restrictions if the number of song files and albums is less than 4,000. When the number of song files connected to the system is between 4,000 and 8,000, the content cannot be accessed directly with one command like “Play <song name>.”

The restriction is that the command “Play Song” must be spoken first; the system will then ask for the song name. The reply command would be to say the name of the song to play.

Similar limits exist for album content. If there are more than 4,000 albums, but less than 8,000, the content cannot be accessed directly with one command like “Play <album name>.” The command “Play Album” must first be spoken; the system will then ask for the album name. The reply would be to say the name of the album to play.

Once the number of songs has exceeded approximately 8,000, there is no support for accessing the songs directly through voice commands. There will still be access to the media content by using commands for playlists, artists, and genres.
The access commands for playlists, artists, and genres are prohibited after the number of this type of media exceeds 4,000.

The system will provide feedback the first time voice recognition is initiated if it has become apparent that any of these limits are reached during a device initializing process.

**Voice Recognition for Navigation**

“Navigation”: Begin a dialog to enter specific destination information.

“Navigation Commands”: Begin a dialog to enter specific destination information.

“Destination Address”: Begin a dialog to enter a specific destination address, which includes the entire address consisting of the house number, street name, and city and state.

“Destination Intersection”: Begin a dialog to enter a specific destination intersection.

“Destination Place of Interest”: Begin a dialog to enter a destination Place of Interest category or major brand name (if equipped).

Not all brand names of businesses are available for voice entry. Most major chains, such as chains with more than 20 locations, should be available to search for by name, but the name must be precisely spoken. Nicknames or short names for the businesses will not likely be found. Lesser known businesses might have to be located by category, such as fast food, hotels, or banks.

“Destination Contact”: Begin a dialog to enter a specific destination contact name.

“Cancel Route”: End route guidance.

**Voice Recognition for the Phone**

“Call <contact name>”: Initiate a call to an entered contact. The command may include location if the contact has location numbers stored.

“Call <contact name> At Home,” “At Work,” “On Mobile,” or “On Other”: Initiate a call to an entered contact and location at home, at work, on mobile device, or on another phone.

“Call <phone number>”: Initiate a call to a standard phone number of seven or 10 digits in length, and also 911, 411, or 611.

If calling outside of North America, state “Call <phone number>” then after the system reads back the number, repeat the “Call” command to initiate the call. If the number is not correct, “Delete” will delete the number and allow it to be entered again. If the number is not complete, speak the remaining digits.
70 Infotainment System

“Pair Phone”: Begin the Bluetooth pairing process. Follow instructions on the radio display.

“Switch Phone”: Select a different phone for outgoing calls.

“Voice Keypad”: Begins a dialog to enter special numbers like international numbers. The numbers can be entered in groups of digits with each group of digits being repeated back by the system. If the group of digits is not correct, the command “Delete” will remove the last group of digits and allow them to be re-entered. Once the entire number has been entered, the command “Call” will start dialing the number.

“Voice Mail”: Initiate a call to voice mail numbers.

Voice Recognition for OnStar (If Equipped)

Voice Recognition for Weather (If Equipped)

“Weather”: Begin a dialog to enter a weather location.

Settings

The Settings Menu allows adjustment of different vehicle and radio features. The menu may contain the following:

Time and Date

See “Clock” in the owner manual.

Language

This will set the display language in the radio, instrument cluster, and voice recognition. Press Language and select the appropriate language. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Valet Mode (If Equipped)

This will lock the infotainment system, the infotainment controls, and storage locations, if equipped. Enter a four-digit code on the keypad. Press Enter to go to the confirmation screen. Re-enter the four-digit code. Press LOCK to lock
the system. Enter the four-digit code to unlock the system. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Radio

Press to display the Radio Menu and the following may display:

- Manage Favorites: Press a displayed Favorite to select that Favorite to edit. Press Rename to rename the favorite or Delete to delete it. Press and hold the station to drag it to a new location. Press Done to go back to the previous menu.
- Number of Favorites Shown: Press to set the number of favorites to display. Select Auto, 5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, or 60. Auto will automatically add or hide additional Favorite pages based on the amount of Favorites stored. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.
- Tone Settings: Press + or − to adjust Bass, Midrange, Treble, or Surround. See AM-FM Radio on page 11.
- Tag Song: Press to tag song information, including artist and title, to transfer to an iPod®. See USB Port on page 21.
- Timeshift: Timeshift is the recording of a radio station for up to 25 minutes. See "Timeshifting" under AM-FM Radio on page 11.
- Auto Volume: If equipped, this feature adjusts the volume based on the vehicle speed. See AM-FM Radio on page 11.
- Bose AudioPilot Noise Compensation Technology: If equipped, this feature adjusts the volume based on the noise in the vehicle. See AM-FM Radio on page 11.
- Maximum Startup Volume: This feature sets the maximum startup volume. If the vehicle is started and the volume is greater than this level, the volume is adjusted to this level. To set the maximum startup volume, press + or − to increase or decrease. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.
- Audio Cue Volume (If Equipped): This feature adjusts the startup and shutdown sounds. To adjust the volume, press + or − to increase or decrease. This feature can be turned on or off. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Vehicle Settings

See “Vehicle Personalization” in the owner manual.
72 Infotainment System

Bluetooth
From the Bluetooth screen button, the following may be displayed:

- Pair New Device: Press to add a new device.
- Device Management: Press to connect to a different phone source, disconnect a phone, or delete a phone.
- Ringtones: Press to change the ring tone for the specific phone. The phone does not need to be connected to change the ring tone.
- Voice Mail Numbers: This feature displays the voice mail number for all connected phones. The voice mail number may be changed by pressing the EDIT button, typing in the new number, and pressing SAVE. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.

Text Message Alerts (If Equipped): This feature will turn text message alerts on or off. Press Text Message Alerts and then select OFF or ON. Press BACK on the faceplate or press the Back screen button to go back to the previous menu. See Text Messaging on page 80.

Speech
From the Speech screen button, the following may be displayed:

- Prompt Length: Press to change the prompt length to Short or Long.
- Audio Feedback Speed: Press to change the audio feedback speed to Slow, Medium, or Fast.

Display
From the Display screen button, the following may be displayed:

- Mode: Press Auto, Day, or Night to adjust the display. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.
- Calibrate Touchscreen: Press to calibrate the touchscreen and follow the prompts. Press BACK on the faceplate or press the Back screen button to go back to the previous menu.
- Turn Off Display: Press to turn the display off. Press anywhere on the display area or any faceplate button again to turn the display on.

Rear Camera
Press to display the Rear Camera menu. See “Driver Assistance Systems” in the owner manual.
Return to Factory Settings
Pressing Continue restores all factory settings.
Select Return to Factory Settings and the following list may display:

- **Restore Vehicle Settings**: Restores factory vehicle personalization settings. Press Restore Vehicle Settings. Press Cancel or Continue. Press BACK on the faceplate or press the Back screen button to go back to the last menu.

- **Clear All Private Data**: Clears all private information. Press Clear All Private Data. Press Cancel or Continue. Press BACK on the faceplate or press the Back screen button to go back to the last menu.

- **Restore Radio Settings**: Restores factory radio settings. Press Restore Radio Settings. Press Cancel or Continue. Press BACK on the faceplate or press the Back screen button to go back to the last menu.

### English and Metric Unit Conversion
To change the display units between English and metric units, see “Instrument Cluster” in the owner manual.

---

**Bluetooth Phone/Devices**

**Bluetooth (Overview)**
The Bluetooth-capable system can interact with many cell phones, allowing:

- Placement and receipt of calls in a hands-free mode.
- Sharing of the cell phone’s address book or contact list with the vehicle.

To minimize driver distraction, before driving, and with the vehicle parked:

- Become familiar with the features of the cell phone. Organize the phone book and contact lists clearly and delete duplicate or rarely used entries. If possible, program speed dial or other shortcuts.

- Review the controls and operation of the infotainment system.
74 Infotainment System

- Pair cell phone(s) to the vehicle. The system may not work with all cell phones. See “Pairing” in this section.
- See “Storing and Deleting Phone Numbers” in this section.

Vehicles with a Bluetooth system can use a Bluetooth-capable cell phone with a Hands-Free Profile to make and receive phone calls. The infotainment system and voice recognition are used to control the system. The system can be used while in ON/RUN or ACC/ACCESSORY. The range of the Bluetooth system can be up to 9.1 m (30 ft). Not all phones support all functions and not all phones work with the Bluetooth system. See www.gm.com/bluetooth for more information about compatible phones.

Controls
Use the buttons on the infotainment system and the steering wheel to operate the Bluetooth system.

Steering Wheel Controls

WXYZ (Push to Talk): Press to answer incoming calls, confirm system information, and start voice recognition.

YZ (End Call): Press to end a call, decline a call, or cancel an operation. Press to mute or unmute the infotainment system when not on a call.

Infotainment System Controls
For information about how to navigate the menu system using the infotainment controls, see Using the System on page 8.

PHONE: Press this screen button to enter the phone main menu.

Audio System
When using the Bluetooth phone system, sound comes through the vehicle's front audio system speakers and overrides the audio system. Turn the volume knob during a call to change the volume level. The adjusted volume level remains in memory for later calls. The system maintains a minimum volume level.

Bluetooth (Infotainment Controls)
For information about how to navigate the menu system using the infotainment controls, see Using the System on page 8.

Pairing
A Bluetooth-enabled cell phone must be paired to the Bluetooth system and then connected to the vehicle before it can be used. See the cell phone manufacturer's user guide for Bluetooth functions before pairing the cell phone.

Pairing Information
- A Bluetooth phone with music capability can be paired to the vehicle as a phone and a music player at the same time.
- Up to 10 devices can be paired to the Bluetooth system.
Infotainment System

Pairing a Phone
1. Press the PHONE screen button.
2. Select PHONES and select Pair New Device.
3. A four-digit Personal Identification Number (PIN) appears on the display. The PIN, if required, may be used in Step 5.
4. Start the pairing process on the cell phone to be paired to the vehicle. See the cell phone manufacturer's user guide for information on this process.
5. Locate “Chevrolet MyLink” on the display. Follow the instructions provided in Step 3, to enter the PIN. After the PIN is successfully entered or the code is confirmed, the system responds with “<Device name> has been successfully paired” when the pairing process is complete.
6. If “Chevrolet MyLink” does not appear, turn the phone off or remove the phone battery and retry.
7. If the phone prompts to accept connection or allow phone book download, select Always Accept and Allow. The phone book may not be available if not accepted.
8. Repeat Steps 1–7 to pair additional phones.

Listing All Paired and Connected Phones
1. Press the PHONE screen button.
2. Select PHONES.

Disconnecting a Connected Phone
1. Press the PHONE screen button.
2. Select PHONES.
3. Press the \(\times\) next to the phone to disconnect.

Deleting a Paired Phone
Only disconnected phones can be deleted.
1. Press the PHONE screen button.
2. Select PHONES.
3. Press the \(\bigcirc\) next to the phone to delete and follow the on screen prompts.
76 Infotainment System

Linking to a Different Phone

To link to a different phone, the new phone must be in the vehicle and paired to the Bluetooth system.

1. Press the PHONE screen button.
2. Select PHONES.
3. Select the new phone to link to from the not connected device list.

Switching to Handset or Handsfree Mode

To switch between handset or handsfree mode, press the PHONE icon on the Home Page to display “Call View.”

- While the active call is hands-free, press the Handset screen button to switch to the handset mode. The screen button changes to Handsfree once the Bluetooth device confirms it is operating as handset.

Making a Call Using Contacts and Recent Calls

Calls can be made through the Bluetooth system using personal cell phone contact information for all phones that support the Phone Book feature. Become familiar with the phone settings and operation. Verify the cell phone supports this feature.

When supported, the Contacts and Recent Calls menus are automatically available.

The Contacts menu accesses the phone book stored in the cell phone.

The Recent Calls menu accesses the recent call list(s) from your cell phone.

To make a call using the Contacts menu:
1. Press the PHONE screen button.
2. Select CONTACTS.
3. Select the name to call.
4. Select the desired contact number to call.

To make a call using the Recent Calls menu:
1. Press the PHONE screen button.
2. Select RECENT.
3. Select the name or number to call.
4. If necessary, select between Missed, Recent, and Sent calls by selecting the View button in the top right corner of the list.
Making a Call Using the Keypad

To make a call by dialing the numbers:
1. Press the PHONE screen button.
2. Select KEYPAD and enter a phone number.
3. Select Call to start dialing the number.

Accepting or Declining a Call

When an incoming call is received, the infotainment system mutes and a ring tone is heard in the vehicle.

Accepting a Call

There are three ways to accept a call:
- Press on the steering wheel controls.
- Press Answer on the center stack display.
- Press Answer on the instrument cluster using the select button.

Call Waiting

Call waiting must be supported on the Bluetooth phone and enabled by the wireless service carrier to work.

Accepting a Call

There are three ways to accept a call-waiting call:
- Press on the steering wheel controls.
- Press Switch on the center stack display.
- Press Switch on the instrument cluster using the select button.

Declining a Call

There are three ways to decline a call:
- Press on the steering wheel controls.
- Press Ignore on the center stack display.
- Press Ignore on the instrument cluster using the select button.

Declining a Call

There are three ways to decline a call-waiting call:
- Press on the steering wheel controls.
- Press Ignore on the center stack display.
- Press Ignore on the instrument cluster using the select button.

Switching Between Calls (Call Waiting Calls Only)

To switch between calls, press the phone icon on the Home Page to display “Call View.” While in Call View, press the call information of the call on hold to change calls.

Three-Way Calling

Three-way calling must be supported on the Bluetooth phone and enabled by the wireless service carrier to work.
To start a three-way call while in a current call:

1. In the Call View, select Add to add another call.
2. Initiate the second call by selecting from RECENT, CONTACTS, or KEYPAD.
3. When the second call is active, press Merge to conference the three-way call together.
4. Once all calls are merged, the Merge button becomes an Unmerge button. Press to unmerge the calls.

Some wireless service carriers may not allow a merged call to become unmerged.

Ending a Call

- Press ` on the steering wheel controls.
- Press End on the center stack display to end all existing calls, or press End next to a call to end only that call.

- Press End on the instrument cluster using the select button.

Dual Tone Multi-Frequency (DTMF) Tones

The in-vehicle Bluetooth system can send numbers during a call. This is used when calling a menu-driven phone system.

1. Press the PHONE screen button.
2. While in the Call View, press the up arrow to raise the interaction selector.
3. Select KEYPAD and enter the number.

Voice Mail

The default voice mail number is the phone number of the outgoing phone source. The voice mail number can be changed in Bluetooth settings.

To dial a voice mail number:

1. Press the PHONE screen button.
2. Select VOICE MAIL.
3. Select Call.
4. Enter the DTMF tones using the keypad if needed.

Bluetooth (Voice Recognition)

Using Bluetooth Voice Recognition

To use voice recognition, press the ` button on the steering wheel. Use the commands below for the various voice features. For additional information, say “Help” while in a voice recognition menu. See Voice Recognition on page 62 for help using voice recognition commands.

Making a Call

Calls can be made using the following commands.
Using the “Dial” or “Call” Command

To call a number:
1. Press \( \text{\textquoteleft\textprime} \text{\textprime} \)\. The system responds “Command Please,” followed by a tone.
2. Say “Dial” or “Call” followed by the complete phone number.

Use the “Voice Keypad” command for international numbers or special numbers which include \( * \) or \#\.

Once connected, the person called will be heard through the audio speakers.

To call using a contact from your phone book:
1. Press \( \text{\textquoteleft\textprime} \text{\textprime} \)\. The system responds “Command Please,” followed by a tone.
2. Say “Dial” or “Call” and then say the contact name. For example “Call John at Work.”

Once connected, the person called will be heard through the audio speakers.

Calling 911 Emergency

1. Press \( \text{\textquoteleft\textprime} \text{\textprime} \)\. The system responds “Command Please,” followed by a tone.
2. Say “Call 911.”

Once connected, the person called will be heard through the audio speakers.

Using the “Switch Phone” Command

1. Press \( \text{\textquoteleft\textprime} \text{\textprime} \)\. The system responds “Command Please,” followed by a tone.
2. After the tone, say “Switch Phone.” The system displays a list of phones to select.

Using the “Voice Keypad” Command

1. Press \( \text{\textquoteleft\textprime} \text{\textprime} \)\. The system responds “Command Please,” followed by a tone.
2. After the tone, say “Voice Keypad.” The system allows entry of special numbers and characters.

Using the “Voice mail” Command

1. Press \( \text{\textquoteleft\textprime} \text{\textprime} \)\. The system responds “Command Please,” followed by a tone.
2. After the tone, say “Voice mail.” The system dials the voice mail number of the connected phone.

Clearing the System

Unless information is deleted out of the vehicle Bluetooth system, it will be retained. This includes phone pairing information. For directions on how to delete this information, see “Deleting a Paired Phone.”
80 Infotainment System

Text Messaging
If equipped, the infotainment system may allow text messages to be received and replied to. Received messages can also be read aloud.

Text Menu
Inbox: Press to display incoming messages. To view a message, press on the name of the sender. Press \( \text{\textgreater} \) to listen to the text message. Press \( \text{\textless} \) BACK on the faceplate or press the Back screen button to go back to the previous menu.

Settings: See “Text Settings” later in this section.

Reply: Press to reply using a predefined text message. See “Text Settings.”

Call: Press to place a call to the sender of the text message.

Viewing a Text Message
While viewing a text message:
- Press Reply to reply using a predefined text message.
- Press Call to place a call to the sender of the text message.

Viewing Sender Information
If equipped, press the name of the sender to view sender information if this information matches contact information already stored.

Select a Predefined Message:
Press to select from a set of quick messages. Press the message to send.

Predefined Messages
These are short text messages that can be used to send so responses will not have to be typed.
The messages can be deleted or a new message can be added.

To add a new message:
1. Press Text Settings, then press Manage Predefined Messages.
2. While in the predefined messages list view, select Add New Predefined Message and a keyboard displays.
3. Type a new message and press NEW MSG when done to add the message. Press \( \text{\textless} \) BACK on the faceplate or press the Back screen button to go back to the predefined messages list.

Memory Full
This message may display if there is no more room on the phone to store messages.
Text Settings

**Text Alerts:** When on, this feature will display an alert when a new text message has been received. Press to turn on or off.

**Manage Predefined Messages:** Press to add, change, or delete predefined messages.

Gracenote Terms of Use

This application or device contains software from Gracenote, Inc. of Emeryville, California ("Gracenote"). The software from Gracenote (the "Gracenote Software") enables this application to do disc or file identification and obtain music-related information, including name, artist, track, and title information ("Gracenote Data") from online servers or embedded databases (collectively, "Gracenote Servers") and to perform other functions. You may use Gracenote Data only by means of the intended End-User functions of this application or device.
This application or device may contain content belonging to Gracenote’s providers. If so, all of the restrictions set forth herein with respect to Gracenote Data shall also apply to such content and such content providers shall be entitled to all of the benefits and protections set forth herein that are available to Gracenote.

You agree that you will use Gracenote Data, the Gracenote Software, and Gracenote Servers for your own personal non-commercial use only. You agree not to assign, copy, transfer or transmit the Gracenote Software or any Gracenote Data to any third party. YOU AGREE NOT TO USE OR EXPLOIT GRACENOTE DATA, THE GRACENOTE SOFTWARE, OR GRACENOTE SERVERS, EXCEPT AS EXPRESSLY PERMITTED HEREIN.

You agree that your non-exclusive license to use the Gracenote Data, the Gracenote Software, and Gracenote Servers will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the Gracenote Data, the Gracenote Software, and Gracenote Servers. Gracenote reserves all rights in Gracenote Data, the Gracenote Software, and the Gracenote Servers, including all ownership rights. Under no circumstances will Gracenote become liable for any payment to you for any information that you provide. You agree that Gracenote may enforce its rights under this Agreement against you directly in its own name.

The Gracenote service uses a unique identifier to track queries for statistical purposes. The purpose of a randomly assigned numeric identifier is to allow the Gracenote service to count queries without knowing anything about who you are. For more information, see the web page for the Gracenote Privacy Policy for the Gracenote service.

The Gracenote Software and each item of Gracenote Data are licensed to you "AS IS." Gracenote makes no representations or warranties, express or implied, regarding the accuracy of any Gracenote Data. Gracenote reserves the right to delete data from the Gracenote Servers or to change data categories for any cause that Gracenote deems sufficient. No warranty is made that the Gracenote Software or Gracenote Servers are error-free or that functioning of Gracenote Software or Gracenote Servers will be uninterrupted. Gracenote is not obligated to provide you with new enhanced or additional data types or categories that Gracenote may provide in the future and is free to discontinue its services at any time.

Map End User License Agreement

END USER TERMS

The Map Data Disc ("Data") is provided for your personal, internal use only and not for resale. It is protected by copyright, and is subject to the following terms (this "End User License Agreement") and conditions which are agreed to by you, on the one hand, and NAVTEQ North America, LLC ("NT") and its licensors (including their licensors and suppliers) on the other hand.

TERMS AND CONDITIONS

Personal Use Only: You agree to use this Data for the solely personal, noncommercial purposes for which you were licensed, and not for service bureau, timesharing or other similar purposes. Except as otherwise set forth herein, you agree not to otherwise reproduce, copy, modify, decompile, disassemble or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. You may transfer the Data and all accompanying materials on a permanent basis if you retain no copies and the recipient agrees to the terms of this End User License Agreement. Multi-disc sets may only be transferred or sold as a complete set as provided to you and not as a subset thereof.

Restrictions

Except where you have been specifically licensed to do so by NT and without limiting the preceding paragraph, you may not (a) use this Data with any products, systems, or applications installed or otherwise connected to or in communication with vehicles capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (b) with, or in communication with, including without limitation, cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

Warning

This Data may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used, and the nature of collecting comprehensive geographic data, any of which may lead to incorrect results.
No Warranty
This Data is provided to you “as is,” and you agree to use it at your own risk. NT and its licensors (and their licensors and suppliers) make no guarantees, representations, or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, usefulness, use or results to be obtained from this Data, or that the Data or server will be uninterrupted or error free.

Disclaimer of Warranty
THE DATABASE IS PROVIDED ON AN “AS IS” AND “WITH ALL FAULTS BASIS” AND BOSCH (AND THEIR LICENSORS AND SUPPLIERS) EXPRESSLY DISCLAIM ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY, SATISFACTORY QUALITY, ACCURACY, TITLE AND FITNESS FOR A PARTICULAR PURPOSE. NO ORAL OR WRITTEN ADVICE OR INFORMATION PROVIDED BY BOSCH (OR ANY OF THEIR LICENSORS, AGENTS, EMPLOYEES, OR THIRD PARTY PROVIDERS) SHALL CREATE A WARRANTY, AND YOU ARE NOT ENTITLED TO RELY ON ANY SUCH ADVICE OR INFORMATION. THIS DISCLAIMER OF WARRANTIES IS AN ESSENTIAL CONDITION OF THIS AGREEMENT.

Disclaimer of Liability
NT AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) SHALL NOT BE LIABLE TO YOU IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, WHICH MAY RESULT FROM THE USE OR POSSESSION OF THIS DATA; OR FOR ANY LOSS OF PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THIS DATA, ANY DEFECT IN THIS DATA, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF NT OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some States, Territories, and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

Export Control
You agree not to export from anywhere any part of the Data provided to you or any direct
88 Infotainment System

product thereof except in compliance with, and with all licenses and approvals required under, applicable export laws, rules and regulations. Entire Agreement: These terms and conditions constitute the entire agreement between NT (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

Government End Users

If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, this Data is a “commercial item” as that term is defined at 48 C.F.R. (“FAR”) 2.101, is licensed in accordance with this End User License Agreement, and each copy of Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following “Notice of Use,” and be treated in accordance with such Notice:

NOTICE OF USE
CONTRACTOR (MANUFACTURER/SUPPLIER)
NAME:
NAVTEQ
CONTRACTOR (MANUFACTURER/SUPPLIER)
ADDRESS:
425 West Randolph Street,
Chicago, IL 60606.

This Data is a commercial item as defined in FAR 2.101 and is subject to the End User License Agreement under which this Data was provided.

© 2013 NAVTEQ. All rights reserved.

If the Contracting Officer, federal government agency, or any federal official refuses to use the legend provided herein, the Contracting Officer, federal government agency, or any federal official must notify NAVTEQ prior to seeking additional or alternative rights in the Data.

Part C – EULA
Copyright 2011, Software Systems GmbH & Co. KG. All Rights Reserved.
The product you have purchased ("Product") contains Software (Runtime Configuration No. 505962; "Software") which is distributed by or on behalf of the Product manufacturer "Manufacturer") under license from Software Systems Co. ("QSSC"). You may only use the Software in the Product and in compliance with the license terms below.
Subject to the terms and conditions of this License, QSSC hereby grants you a limited, non-exclusive, non-transferable license to use the Software in the Product for the purpose intended by the Manufacturer. If permitted by the Manufacturer, or by applicable law, you may make one backup copy of the Software as part of the Product software. QSSC and its licensors reserve all license rights not expressly granted herein, and retain all right, title and interest in and to all copies of the Software, including all intellectual property rights therein. Unless required by applicable law you may not reproduce, distribute or transfer, or de-compile, disassemble or otherwise attempt to unbundle, reverse engineer, modify or create derivative works of, the Software. You agree: (1) not to remove, cover or alter any proprietary notices, labels or marks in or on the Software, and to ensure that all copies bear any notice contained on the original; and (2) not to export the Product or the Software in contravention of applicable export control laws.
EXCEPT TO THE EXTENT OTHERWISE REQUIRED BY APPLICABLE LAW, QSSC AND ITS LICENSORS PROVIDE THE SOFTWARE ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ANY WARRANTIES OR OTHER PROVISIONS OFFERED BY THE MANUFACTURER OR ITS DISTRIBUTOR(S) THAT DIFFER FROM THIS LICENSE ARE OFFERED BY THE MANUFACTURER OR ITS DISTRIBUTOR(S) ALONE AND NOT BY QSSC, ITS AFFILIATES OR THEIR LICENSORS. YOU ASSUME ANY RISKS ASSOCIATED WITH YOUR USE OF THE SOFTWARE UNDER THIS LICENSE.

EXCEPT TO THE EXTENT OTHERWISE REQUIRED BY APPLICABLE LAW (SUCH AS IN THE CASE OF DELIBERATE OR GROSSLY NEGLIGENT ACTS), IN NO EVENT SHALL QSSC, ITS AFFILIATES OR THEIR LICENSORS BE LIABLE TO YOU UNDER ANY LEGAL THEORY, WHETHER IN TORT (INCLUDING NEGLIGENCE), CONTRACT OR OTHERWISE, FOR DAMAGES, INCLUDING ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER ARISING AS A RESULT OF THIS LICENSE OR OUT OF THE USE OR INABILITY TO USE THE PRODUCT (INCLUDING BUT NOT LIMITED TO DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, PRODUCT FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES), EVEN IF QSSC, ITS AFFILIATES OR THEIR LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

WMA
This product is protected by certain intellectual property rights of Microsoft. Use or distribution of such technology outside of this product is prohibited without a license from Microsoft.

For more information on the Software, including any open source software license terms (and available source code) as well as copyright attributions applicable to the Runtime Configuration indicated above, please contact the Manufacturer or contact QSSC at 175 Terence Matthews Crescent, Kanata, Ontario, Canada K2M 1W8 (licensing@qnx.com).
